## Gwen McVey, Claudia Shannon, and Joan Robinson

## Plants/Flower

Who has flower?	
I have flower.	Who has the part that is planted in the soil?
I have seed.	Who the liquid nutrient for plant growth?
I have water.	Who has light for plants?
I have sun.	Who has to get bigger?
I have grow.	Who has dirt in which you plant the seed?
I have soil.	Who has the part of the plan that absorbs nutrients from the soil?
I have roots.	Who has the part that holds up the plant?
I have stem.	Who has the part that grows off the side of the stem?
I have leaf.	Who has the first part of the plant growing up from the seed?
I have sprout.	Who has the part when the flower opens?
I have bloom.	Who has the top part of the plant once it is opened?
I have flower?
