

Find your next adventure in Kansas

Load the motorcoach with a group of your best clients and head for adventure in Kansas!

From space exploration to a museum 650 feet below ground, **Hutchinson** will give your tour group a new sense of the space race and an underground adventure like no other! Visitors will see actual space artifacts, including the Apollo ??? and ?? space capsules at the **Kansas Cosmosphere and Space Center**. Then you can go "down under" to experience the **Kansas Underground Salt Museum** - the only one of its kind in the Western Hemisphere!

Visitors will experience the wild side of things in **Salina** as they tour the **Rolling Hills Wildlife Adventure**, featuring two different wildlife attractions in the same destination. Tour the ??? acre wildlife refuge set in the rolling hills of Kansas and then step into one of the largest collections of (stuffed) animals in the United States (help me Sylvia!).

Whether you are planning a golf/spa getaway, an exciting dinosaur adventure with the kids, or something in between, **Hays** has it. Feel free to explore our ever-growing **Chestnut Street** district with unique shopping and eateries, our collection of majestic churches in the area including the **Cathedral of the Plains**, or our world-class **Sternberg Museum of Natural History** featuring the famous fish-within-a-fish fossil.
