Proposed For General Education? Yes  No  
Does Course Have Variable Title? Yes  No  
Is A Lab Course Required? Yes  No

May The Course Be Enrolled In For Credit More Than Once? Yes  No  
If yes, under what conditions:

Course Description As It Would Appear In The Catalog: A course on the development of American agriculture from Native Americans to early colonial settlement through present times. Topics include social, economic and political developments and technological advances in US agriculture.

What Are The General Objectives Of The Course?: 1) Students will interpret the impact that discoveries, inventions, laws, etc. have had upon the agriculture sector in the US and abroad. 2) Students will evaluate the practices used by many native Indian tribes in North America and follow progression through early colonists' time, up through and including some of the more recent technological advances which has forever changed the world in which we live.
