How to use the [Online Catalog](#) to search for books

To access the catalog, click on the link above, or go to the library's homepage at www.fhsu.edu/forsyth_lib. Next, click on "Online Catalog", on the left hand side under *Quick Links*.

Type in your topic in the "Find this" box. Type in just the key (most important) words, and leave out "the", "and", "an", etc.

Next, choose what type of search you want to do: keyword, title keyword, journal title, etc. This tells the computer where you want it to look for your search terms:

All Fields (Keyword) Search: Searches for your term in every area, including title, descriptions, publisher, author, etc. This search will yield many results, but many will be irrelevant because your term is just mentioned briefly, and is not necessarily a focus of the book.

Title (Keyword): Note: if you enter a phrase, enclose it in quotation marks (e.g. "anatomy of hope"). This type of search finds only those items which have your search terms in the title. It is a good way to find items that focus on your topic. You can also use this search if you are looking for a specific book but are unsure of the exact title.

Left Anchored Title: Use this if you know the exact title of an item, or the first few words.

Author: Find all works (owned by Forsyth Library) by a particular author. Enter the name last name first, followed by the first name, or an initial, if you know it.

Journal Title (Keyword): Search for a full or partial title of a journal, newspaper or magazine title. Click on the title to see the call number and what years/issues of this periodical the library owns.

Once you've found a title you like, note the **location, call number, and availability**.

Title: *The anatomy of hope: how people prevail in the face of illness.*

Location: General Collection: Top Floor

Call Number: R726.5 G76 Status: Available
