

# DE-ESCALATION TRAINING

## at Fort Hays State University

### TESTED AND PROVEN

National De-escalation Training Center approved training is the most comprehensive, innovative, and evidence-based experiential program available for law enforcement professionals. Based on the DISC Esoterica® personality assessment system – a tested and proven method to identify actional and personality traits in human behavior – NDTC training teaches officers to identify personality characteristics quickly, to adjust their approach and maximize effective communication and interaction with a subject.

### THE NDTC MODEL AT A GLANCE

Individuals trained in NDTC De-escalation: Principles & Practice will learn best practice de-escalation methods to:

- Respond in a procedurally-just manner
- Recognize individuals experiencing a mental and or physical crisis
- Apply behavior modeling to resolve potential conflicts
- Recognize and respond to active and passive threat
