SECTION I: INTRODUCTION

The Department of Nursing Master of Science in Nursing (MNS) program has approval from the Kansas State Board of Nursing and is accredited by Commission on Collegiate Nursing Education. The graduate nursing program offers the Master of Science in Nursing degree and Post-Master's Certification in the roles of Nurse Administrator (NA) or Nurse Educator (NE). The MSN is a graduate degree program designed to prepare nurses to assume advanced nursing specialty roles. Information about specific course offerings can be found in the University Catalog, available from the Registrar's Office or at <http://web.fhsu.edu/universitycatalog/>

SECTION II: MISSION, PHILOSOPHY, OBJECTIVES and CURRICULUM

MISSION STATEMENT OF THE DEPARTMENT:

The mission of the Department of Nursing is to provide high quality liberal arts based undergraduate and graduate education utilizing the standards of professional nursing. A major commitment of the department focuses on using unique opportunities that may include scholarship, service, and health care delivery. Advanced informational technology is integral to serving the educational needs of diverse populations in various work environments. Technology serves as a link between the rural cultures of western Kansas and the diverse global community.

DEPARTMENTAL GOALS:

The overall goals of the Department of Nursing reflect the commitment to the mission of the department and are congruent with the mission statements of the university and college. The ordering of the goals does not indicate a hierarchical priority; all goals are viewed as being important for actualizing the department mission.

1. To prepare professional nurse generalists at the undergraduate level who are capable of practicing in various settings and possess the foundation for graduate study.
2. To prepare competent graduate nurses in advanced nursing.
3. To prepare nurses at the doctoral level capable of being a healthcare leader.
4. To offer a nursing curriculum using advanced informational technology.
5. To improve health care delivery.
6. To prepare faculty and graduates for the future needs of a global society, while integrating a humanistic understanding of diverse populations.
7. To use the expertise of faculty and students in providing public service activities.
8. To engage faculty and students in scholarly activities and to disseminate research findings for the benefit of society and the nursing discipline.

DEPARTMENT OF NURSING CORE PHILOSOPHY:

The Department of Nursing has adopted the following Core Philosophy. This Core Philosophy provides a basis for the undergraduate nursing and the graduate nursing philosophical statements.

Human: The human is the focus of interest for the discipline of nursing. Humans are considered as individuals and as aggregates or groups within a holistic framework.

Environment: Environment is a dynamic interplay among political, economical, technological, societal, and other influences in which a human, aggregates and/or groups interact concerning health care, health care delivery and/or systems.

Health: Health is a dynamic pandimensional state of being uniquely defined within a

cultural context by individuals, aggregates, or society. Health is a focus of nursing attention, not as an end in itself, but as a means to life that is meaningful and manageable.

Nursing: Nursing is a unique body of science influencing the health of humans. The implementation of nursing science and the art of nursing is nursing practice. Therefore, nursing is a blend of both science and art.

Learning: Learning is the art or process of acquiring knowledge and skill that include but are not limited by investigation, instruction, practice, and experience. Learning is an active internal process. Learning is not limited by but may include change of behavior, attitude, or thinking. The motivation to learn and the rewards of learning are complementary and dynamic. Learning is a lifelong process that involves the development of human potential. Approved 5/06 DLC

GRADUATE NURSING PROGRAM PHILOSOPHICAL STATEMENTS:

The Department of Nursing philosophical statements for Human, Environment, Health Nursing and Learning are used for the Master of Science (MSN) programs. Graduate nursing education builds upon the knowledge and competencies that characterize baccalaureate education in nursing. The MSN curriculum integrates theory and research from nursing and related disciplines. Acquiring advanced nursing knowledge provides the foundation for mastery of advanced practice. The nursing master's curriculum provides the foundation for doctoral studies in nursing.

PURPOSE OF GRADUATE NURSING PROGRAM:

The purpose of the MSN programs is to prepare advanced practice professional nurses with a global perspective who are capable of providing advanced nursing care in various settings. Graduate education is designed to accommodate the educational needs of the adult learner. The graduate will be prepared to practice and to lead various health care related agencies.

The MSN curricula actualizes the mission of the Department of Nursing and the graduate nursing program philosophy by preparing advanced practice nurses in the specialty roles of nursing education and nursing administration. The objectives of the MSN program delineate roles, levels of knowledge, distribution of nursing knowledge and collaborating and consulting with health care consumers and other health care professionals.

Courses for all track programs, including the Nurse Administration and Nurse Educator tracks, build on a core curriculum. The core courses provide the foundation for specific course objectives and are designed by using the principle of basic to advanced concepts. The graduate program expands the student's education using the program strands or concepts as a guide. The student is encouraged to view humanity and society from a global perspective, by addressing the health status of individuals, health care system, leadership and management.

Based on the synthesis of theory, practice and research, the graduate program facilitates scholarly deliberation, philosophical reflection and evaluation of societal trends. A major commitment of the program centers on utilization of innovative strategies to deliver quality nursing education. Technology serves as an interactive link in connectivity between the graduate nursing student and the university faculty.

Updated 5/2016

GRADUATE NURSING CURRICULUM:

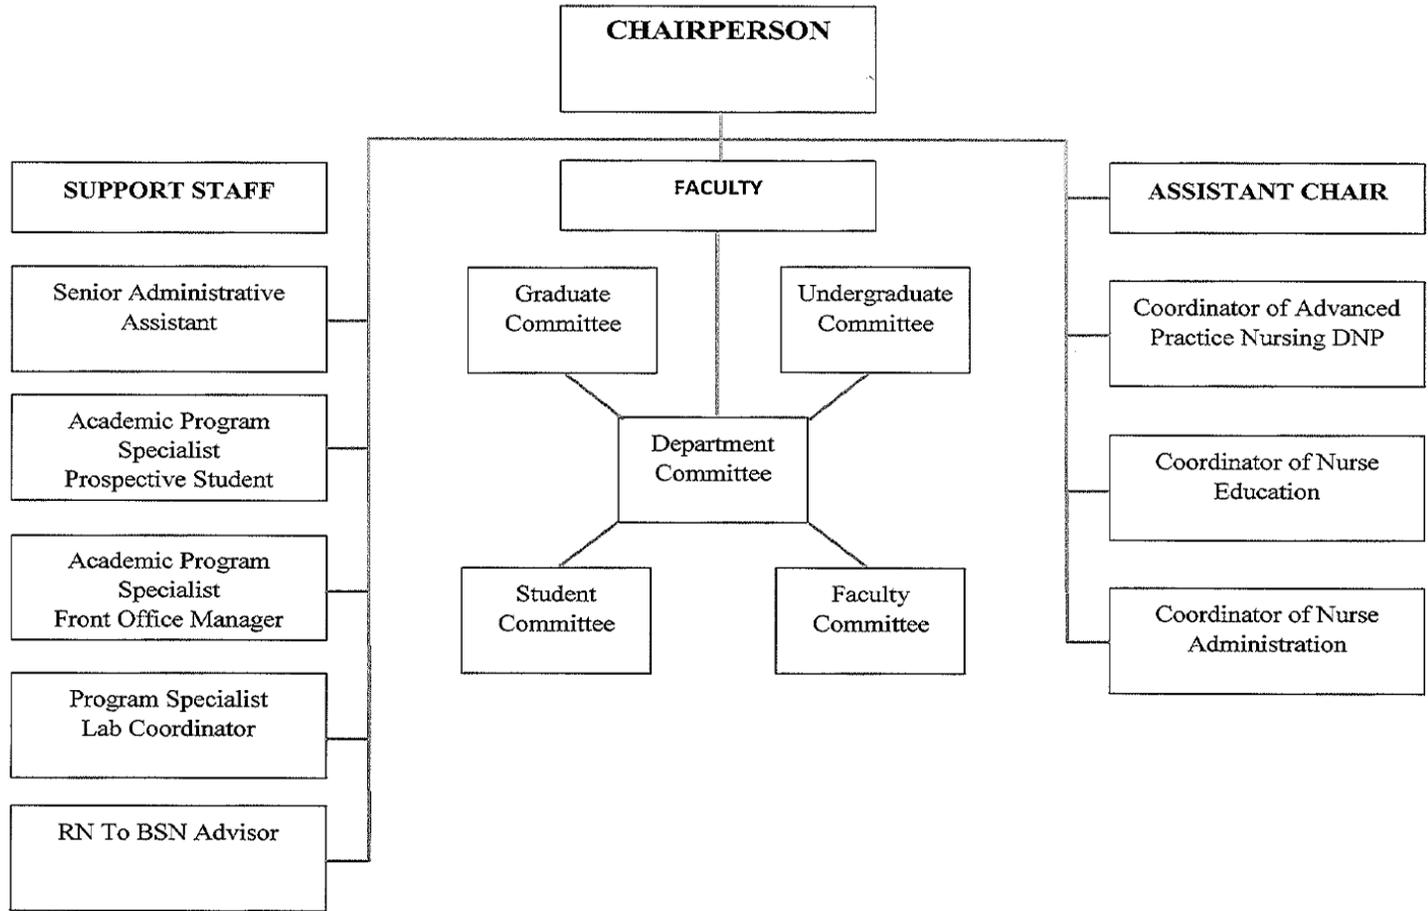

The Master of Science in Nursing (MSN) curriculum actualizes the mission of the Department of Nursing and the MSN philosophy by preparing expert nurses in primary care and specialty roles as family nurse practitioners, nursing education, and nursing administration. According to the purpose and goals of the MSN, the Department of Nursing prepares graduates to: provide advanced nursing expertise to rural and underserved populations, increase the theoretical basis of the discipline through research, influence health care delivery systems by increasing the availability of advanced practitioners, and exercise leadership in an ever-changing global society.

The specific objectives of the MSN program delineate roles, levels of knowledge achievement (including research), distribution of nursing knowledge and collaborating and consulting with consumers and other health care professionals. In accordance with the mission of the Fort Hays State University, the College of Health and Behavioral Sciences and the Department of Nursing, the graduate nursing curriculum is delivered to students with the latest technological medium.

The MSN curriculum builds upon the professional nurse generalist foundation provided by the undergraduate nursing program curriculum and prepares nurses capable of providing advanced nursing care. Core content serves as the underpinning for specific course objectives as the student progresses through the program of study. Courses are designed by using the principle of basic to advanced concepts.

Graduate students learn to view humanity and society from a global perspective, while addressing the integrative health states of individuals. Emphasis is placed on evaluating the health care system and carrying out consultative aspects of leadership and management. Graduate students also learn to conduct research and provide advanced nursing care based on a matrix of scholarly and theoretically sound knowledge. An evidence based project is required for all other MSN students.

SECTION III: DEPARTMENTAL ORGANIZATIONAL STRUCTURE

SECTION IV: ADMISSION

Admission to the Nursing Program is a two-step process; both steps must be completed by the application deadlines.

UNIVERSITY GRADUATE SCHOOL REQUIREMENTS:

Make application to the Fort Hays State University Graduate School. A Graduate School application can be requested by calling (785) 628-4236, by going to Picken Hall 306 or online at <http://www.fhsu.edu/academic/gradschl/apply/>. Submit all required documents to the FHSU Graduate School.

Students may take up to 6 credits of graduate nursing courses prior to completing the application to the nursing program. Completing graduate courses does not guarantee acceptance into the graduate nursing program.

GRADUATE NURSING PROGRAM REQUIREMENTS:

Request the graduate nursing application form by calling (785) 628-4256 or submit online at <http://www.fhsu.edu/nursing/> to be considered for admission, the student must:

1. Submit the nursing department application to the nursing department by the application deadline: March 1 for summer or fall semesters, July 1 for the fall semester, and October 1 for spring semester admittance review. Files that are incomplete will not be considered for admission.
2. Apply to a specific MSN track: Nursing Administration (NA) or Nursing Education (NE). Changing to the other track after admission to the nursing program will require contacting the advisor and completing paperwork for review and approval.
3. Complete baccalaureate degree with an upper division major in nursing from a program accredited by a nationally recognized nursing accrediting authority (CCNE or NLNAC).
4. Have a minimum cumulative GPA of 3.0 (on a 4.0 scale) for the baccalaureate nursing degree.
5. Undergraduate course requirements:
 - Statistics, 3 credit hour course, with a grade of “B” or better.
6. Have a current RN license in good standing to practice professional nursing in the United States.
7. Provide documentation of current and annual possession of:
 - a. Background check by the FHSU approved agency, updated at the students expense as or if requested.
 - b. Hepatitis Vaccination Series. If a student does not obtain the hepatitis vaccination he/she must sign a waiver form releasing Fort Hays State University from any claims or damages which may arise from the decision not to receive the Hepatitis B vaccine. A release form may be obtained by contacting the Graduate Nursing Administrative Assistant.
 - c. Negative TB skin test or Chest X-ray. If positive, the student must follow protocols recommended by the Kansas State Department of Health and Environment
 - d. All standard immunizations as required.
 - e. United States RN license in good standing.
 - f. Professional liability insurance coverage.

- g. Personal health insurance coverage.
 - h. BLS Certification from American Heart Healthcare provider.
8. Students not accepted/admitted must reapply to the Department of Nursing to be considered again.

Transfer Requirements:

Graduate students may apply to transfer up to six graduate credits from other universities. Course description and syllabi are required so that the Graduate Nursing Committee can review and approve (or not) the courses for transfer. Any course being requested for transfer credit must be submitted to the advisor within six weeks of admission date notification from the Graduate School. Courses not submitted within the six week timeframe will not be accepted.

Post-Master's Certificate

The Nursing Administration and Nursing Education Post-Master's certificates both require completion of 12 credit hours. Both certificate programs can be completed online; they require the student to successfully pass the Comprehensive Track Exam for the specific Post Master's program and present a scholarly research project. The student desiring to obtain a Post-Master's certificate must complete the application processes to the University Graduate School and submit the Nursing Graduate Program application found at <http://fhsu.edu/nursing/post-masters-certificates/> by the deadlines, March 1 for summer or fall semesters, July 1 for the fall semester, and October 1 for spring semester admittance review.

Advising:

1. Students will be assigned a graduate nursing advisor after admission to the nursing program in alignment with their designated program of study.
2. Students should contact their advisor prior to enrollment to schedule the necessary appointments to guide their progress through the curriculum.
3. Students can expect to complete a Program/Plan of Study (POS) with the guidance of their assigned advisor.
4. It is the responsibility of the student to become familiar with the requirements for the degree.
5. Full time study in FHSU graduate programs is 9 credit hours

Students plan their program of study for the Master's degree with their major advisor. The MSN program is approved by the major advisor, Nursing Chairperson, and the Dean of the Graduate School. Students' program plans should be filed in the Graduate School after the completion of nine hours of graduate credit (see Graduate School website).

Admission Information for International Students:

Admission to the Master of Science Nursing (MSN) program is a two-step application process; both applications must be completed by the due dates (March 1 for summer or fall semesters, July 1 for fall semesters, and October 1 for spring semester admittance review) in order to be considered for admission.

Prior to admission to the Master of Science Nursing (MSN) program

- Complete a Graduate School application found at <http://www.fhsu.edu/academic/gradschl/apply/> as an International Student (all paperwork/documentation must be submitted to the Graduate School). Use the checklist, online application form, information form, and financial form to complete their application process. The Graduate School can be contacted by phone at (785) 628-4236 or by email at cmmergen@fhsu.edu
- Take the CGFNS qualifying exam and the TOEFL exam (test of English as a foreign language). Applicants must meet all of the requirements specified by CGFNS and any deficiencies noted by CGFNS must be met.
- If English is not the native language of the country of origin, take the Test for Spoken English (TSE) in country of origin and pass the TSE according to the requirements of the CGFNS.
- Maintain a Registered Nurse (RN) license to practice in the United State (must pass the NCLEX-RN and receive license to practice as a registered nurse). Students taking clinicals out-of-country must find a Facility considered U.S. territory, such as a Hospital on a Military Base, and find a Mastered prepared preceptor within that Facility to work with our faculty.
- Complete a Department of Nursing application found at <http://www.fhsu.edu/departmentform.aspx?ekfrm=15032385736>.
 - ❖ All out-of-country courses/transcripts taken outside of the United States, must be evaluated by the Commission of Graduates of Foreign Nursing Schools (CGFNS) to confirm BSN degree, course credits, and grades including grade point average (GPA). CGFNS can be contacted at www.cgfns.org. **You must specify that you want a course by course evaluation.** The CGFNS report must be submitted directly to Joyce Dechant, Fort Hays State University, Department of Nursing, 600 Park Street, Hays, Kansas, 67601.

Additional International Student information can be found under the “Admission Information for International Student” section of the Graduate Nursing Handbook found at the following site: <http://www.fhsu.edu/nursing>. Contact the Department of Nursing by phone at (785) 628-4256 or by email at jdechant@fhsu.edu for further assistance.

SECTION V –PROGRESSION

PROGRESSION THROUGH THE CURRICULUM

The following criteria must be met in order to progress through and complete the Master's program. Extenuating circumstances may justify exceptions to these criteria.

1. Students may apply to transfer up to six graduate credits from other universities. Course description and syllabi are reviewed and approved (or not) for transfer by the Graduate Nursing Committee.
2. The student must attain at least a cumulative "B" average (3.0) on all graduate courses taken toward the degree.
3. At the end of any semester in which the student's cumulative GPA in all graduate courses is below 3.0, the student will be placed on probation and given one semester to raise the cumulative GPA to 3.0 or better by taking courses listed on the Program of Study. Should a student's cumulative GPA in all graduate courses remain below 3.0, the student's performance will be reviewed for dismissal by the Nursing Graduate Committee.
 - a. Student academic performance/progress will be evaluated on a semester basis by the Nursing Graduate Committee.
 - b. Grades of "C" will be accepted for only six credit hours.
 - c. A course grade of D or U in any graduate course is not acceptable. Any "D" or "U" course must be retaken in order to progress in his/her program of study acknowledging that the course must be retaken during the first available semester that the course is offered and that the course may be retaken only once. If the student chooses to continue in the graduate nursing program, the student must contact his/her advisor to initiate a plan of improvement. Failure to improve coursework to meet passing academic standards according to the nursing department within one semester may result in dismissal from the nursing program.
4. Both theory and preceptorship components of the co-requisite courses must be taken concurrently if repeated.
5. The ability to repeat a course for whatever reason will depend on space available in the course.
6. An 'Incomplete' may be requested in any course by the student. An 'Incomplete' may or may not be granted at the discretion of the lead course instructor.
7. Unprofessional behavior demonstrated by a FHSU graduate student will necessitate action by the nursing faculty. These behaviors include, but are not limited to: falsification of practicum hours, inappropriate use of social media, violations of HIPAA, inappropriate communication with patient, peers, faculty, staff, inattention to patient safety needs, incorrect documentation of treatment prescriptions, the suggestion of impairment, unkempt personal appearance, etc.
8. Audited courses or continuing education workshops are not accepted in the program for the Master's degree.
9. Elective graduate course(s) are selected after consultation between the major advisor and the student. The major advisor submits the recommendation to the Dean of the Graduate School for consideration.
10. All graduate courses for a Master's degree program must be completed within six years. The time begins with the beginning of the semester or summer term that

the first course is taken in the degree program.

VALIDATION OF COURSES:

Validating examinations for outdated credit will be given upon approval of the instructor and the Graduate Dean. Credit hours which are older than six years must be validated.

GRADUATE SCHOOL ADMISSION TO CANDIDACY:

Admission to candidacy is an important step in the completion of a degree program. The student must be recommended for candidacy by the advisor and the department chair. The student is admitted to candidacy by the Graduate Dean. To be admitted to candidacy, the student must have:

1. Removed all deficiencies for admission to graduate study;
2. Filed an approved program of study for the Master's degree;
3. Completed a minimum of nine hours of graduate credit toward the degree program;
4. Earned a cumulative GPA of 3.0 in all graduate courses toward the degree;
5. Removed all incompletes in the core nursing courses;
6. This process is formally completed by the Department of Nursing once the student meets the above criteria.

The student must be admitted to candidacy before being eligible to sign up for or take the comprehensive examination or to file an Intent to Graduate.

COMPREHENSIVE EXAMINATIONS FOR MSN AND POST-MASTERS STUDENTS

Each applicant for a graduate degree must satisfactorily pass a comprehensive examination over the track courses of the program. The comprehensive examination is a test of the graduate degree candidate's ability to integrate materials from the graduate major and any related or supporting fields.

The comprehensive examinations are scheduled for each semester, the first writing is the second Wednesday in October and in March. Should a retest need to be done, the second writing is scheduled for the third Wednesday in November or January or April or June. A student will be required to repeat the nursing course corresponding to the failed content should there be a failure of the second writing.

The comprehensive examinations are administered online in BlackBoard and must be proctored. The proctor will be provided with the examination password just prior to the availability of the examination. Students will be placed in the Comprehensive Review Course on BlackBoard when the nursing department has received all of the necessary documentation required for writing the examination. These documents will be sent per email to students indicating they desire to write the exam during the current semester. Comprehensive examinations are graded anonymously and must be passed with a grade of 80% or above in order to complete the MSN program.

EVIDENCE BASED PRACTICE PROJECT REQUIREMENTS:

The completion of an Evidence Based Practice Project (EBP) is required of all degree-seeking candidates in the Nursing Education and/or Nursing Administration Tracks.

INTENT TO GRADUATE:

The MSN student and Post-Master's student must submit the Intent to Graduate form to the Graduate School at the beginning of the semester in which the student plans to graduate. A new declaration is required for each successive semester until graduation. This form can be obtained from the Graduate School.

SECTION VI –ADDITIONAL INFORMATION

GRIEVANCE AND APPEAL PROCESS:

The grievance and appeal process follows the guidelines in the University Catalog. A student may appeal in the following order: the Instructor, Department Chairperson, Dean of the Graduate School, Provost, and the President. The student is assured of due process and right of appeal as established by the University-level appeals procedures.

POLICY ON ACADEMIC HONESTY:

The Department of Nursing adheres to the Academic Honesty policy of the University as found in the University Catalog.

Students who compromise the integrity of the academic process are subject to disciplinary action at the discretion of the instructor which could result in a failing grade for the course. This behavior could also result in immediate dismissal from the program as evaluated by the Graduate Committee and the Chairperson of the Department.

POLICY ON CONFIDENTIALITY:

Students are required to maintain confidentiality regarding all clinical experiences and assignments in compliance with the Health Insurance Portability and Accountability Act (HIPAA). Failure to do so may result in immediate dismissal from the program. A confidentiality agreement will be signed according to institutional requirements.

POLICY ON UNPROFESSIONAL BEHAVIOR:

Any student displaying unprofessional behavior may be dismissed from the program. Any student found to be under the influence of habit forming drugs and/or alcohol during course activity may be subject to immediate dismissal from the nursing program.

BACKGROUND CHECKS:

In keeping with the nursing profession's responsibility for protecting the public from harm while providing nursing care, clinical agencies and/or the Department of Nursing will ask that nursing students submit information necessary for a background search. Students will pay all fees for such searches unless the clinical agencies provide this service for students. If the student does not comply, it will be grounds for immediate dismissal. If the agency denies a student access for clinical experience, the student will contact his/her instructor and the Chairperson. Each student is expected to obtain a background check upon admission to the Master of Science program using the Department of Nursing process and again every four years or as requested by the Nursing Department.

DEFINITIONS

Apprentice Expert and Expert Teachers: An individual who possesses a minimum of a Master's degree in Nursing with experience in an area which the student has an interest. The Apprentice Expert will serve as a mentor for nursing administration and nursing education students and must accept the educational philosophy and curriculum of the university and Department of Nursing. The Apprentice Expert and Expert Teachers will provide a resume/vitae to the Department of Nursing. The instructor of the course determines if an individual has adequate experience and education to be qualified to serve as an Apprentice Expert or Expert Teacher. This individual will work closely with the student in the role setting. The Apprentice Expert or Expert Teacher will provide the instructor feedback about the student's performance, but the instructor determines the course grade.

Apprenticeship: An experience for the Nursing Administration (NA) or Nursing Education (NE) graduate nursing student to apply knowledge in role specific situations. Goals for the student include but are not limited to: relating theory and research to practice in the advanced role of a nurse administrator or nurse educator, refining skills in the area of nursing administration or education, and implementing the nurse administrator or nurse educator role under the supervision of the Apprentice Expert or Expert Teacher.

Clinical Agreement: A clinical agreement between a healthcare provider/agency and FHSU is obtained by the student and completed per course requirements. A clinical agreement must be in place before a student can begin any clinical experience involving direct care and all practicum or apprenticeship experiences.

Full-time Graduate Student: Student enrolled in a minimum of 9 graduate credit hours each fall and spring semester; minimum of 6 graduate credit hours summer semester.

Graduate Assistant: Graduate student assigned to the Department of Nursing by the FHSU Graduate School to work (in a mentor-mentee relationship) with members of the graduate nursing faculty on teaching and/or research activities.

Graduate Teaching Assistant: Graduate student assigned to the Department of Nursing by the FHSU Graduate School to work (in a mentor-mentee relationship) with members of the nursing faculty to prepare for, monitor or assist with classes, and/or assist with research activities.

RESOURCES

Library:

1. Library resources are widely used by graduate students. Students should attend library orientations in person or virtually and familiarize themselves with library resources.
2. Some journal articles necessary for course work (e.g. written papers) in the graduate nursing program may not be available at Forsyth Library. The librarians can assist students with an interlibrary loan to obtain materials through cooperation with other libraries nationwide. Allow *at least 2 weeks* for processing and receiving requests.

Internet and E-Mail:

Students are given an e-mail address at enrollment time. Students are expected to use the fhsu email for all course and advisor contacts. To access your e-mail address go to the web site www2.fhsu.edu/email and type in your last name and click on submit. If you are looking for your own e-mail address and the search does not find it, it is possible that your ID has not yet been assigned (due to enrolling late). To request an ID, contact 'TigerTech' or stop by Tomanek Hall, room 113, to complete a request form. After making your request, please allow at least one working day before trying the search again. The email address is to be used for all communication with the Department of Nursing and the university.

Computer Issues:

Students have access to 'TigerTech', the HelpDesk call center and PC support operations of Fort Hays State University. 'TigerTech' is located in Tomanek Hall room 113 and is available at <https://www.fhsu.edu/Technology/news/HelpDesk,-TigerInfo-Call-Center-and-PC-Support-operations-merge-to-form-TigerTech/> or phone 785-628-FHSU and ask for 'TigerTech'.

Student Health Center:

Nurse Practitioners and nurses offer a variety of health services at the Student Health Center for enrolled students.

MSN Program Policy:

Students are expected to follow the most updated handbook posted on the Fort Hays State University Nursing Department web at all times while in the Master of Science of Nursing program.
