

TEACHING EARTH SCIENCE BY USING PROBLEM-BASED LEARNING

- 2 credit hours, web-based (June 1 to approx. July 10)
- Need to learn some earth science?
- Looking to gain skill with problem-based learning?
- This is the Course for you!!
- The focus will be on earth system science looking at ice cores and possibly bio-fuels and how these impact the earth as a system.
- Successful completion of the course will result in a stipend of not less than \$320 that can be used to offset the **OPTIONAL** enrollment in 2 hours of credit for \$428.
- That could be 2 credit hours for a net cost of \$108
- The stipends are limited to 9 people
- Please send an email to amryan@fhsu.edu for registration materials.

Please complete and return to Ann Ryan-Noble at amryan@fhsu.edu
