INSTRUCTIONS FOR SUBMITTING A REVISION

What it means to submit a revision...
A study has been reviewed, and approved by the IRB. The researcher requests changes to the approved protocol.

These changes must be reviewed and approved by the IRB before they may be implemented in the project.

The following instructions are for studies that originated on IRBNet.
(If your project originated on paper, please proceed to page 3.)

1. Login to IRBNet (www.irbnet.org).
   This will take you to the My Projects page.

2. Select the Project to Revise
   Click on the title of the project that you would like to revise. Then click on the 'Project History' button located on the left-hand side of the screen.

3. Create a New Document Package
   Click on 'Create New Package' button in the center of the Project History page, and then click on 'New Document Package'.

4. The Designer Page
   You will now be on the Designer page. You can access this page at any time by clicking on the 'Designer' button on the left-hand side of your screen. From here, you can either upload newly revised documents for your project or you can 'update’ a document that was submitted with your original project.

   * Make sure that all revisions are highlighted as this makes it easier for the IRB to locate your revisions within your document(s). Please note that studies will not be scheduled for review unless the revisions are highlighted.

   A. Upload a revised document: Click on 'Add New Document' button located within the Step 2 section of the page. Browse for your revised documents and any other relevant files from your computer and click 'Attach'.

Revision Date: 2/10/2010
B. Update a document: Documents from a previous package will be listed underneath the 'Documents from Previous Packages that you can Revise' header within the Step 2 section of the page. Click on the pencil icon in the row of the document you wish to update. Browse for your revised document and click 'Update'. This will swap out the original document for a revised document. You should now see that your 'updated' document will now be listed underneath the 'New and Revised Documents in this Package' header. If there are no other documents from your original package that can be revised, the 'updated' document will instead be listed in the 'Documents in this Package' section of the page.

C. Attach the FORM REVISING AN APPROVED STUDY
Down load the form template from the document library. Select “Fort Hays State University” from the ‘Select a Library’ drop down menu.

Next, select the “FORM REVISING AN APPROVED STUDY” and click “Download”. Fill in the necessary information and choose File>Save As” to save the document to your computer.

Upload the Completed Revision Form and related documents. From the Designer screen, upload documents for your project in the Step #2 section of the page by clicking on 'Add New Document'. Browse for your completed IRB Modification Form and click ‘Attach’.

If the revisions you are submitting will change affect other documents previously submitted (IRB application, consent form, etc.) you must include these revised documents along with the IRB Revision form. You can do this using the same procedure as outlined in Step 5. Please make sure all revisions are highlighted in some manner.
