Professional Experience

Speech-Language Pathologist, 20xx-Present

Coffey County Special Education Cooperative, Burlington, KS

- Evaluate and treat children ages' birth through high school, including children with articulation disorders, phonology disorders, language disorders, fluency disorders, voice disorders (hypernasality), Autism, Developmental Verbal Apraxia of Speech, and Down Syndrome.
- Provide services in elementary schools, middle schools, high schools, and the Infant-Toddler Program.
- Perform evaluation report writing, IEP writing using computerized IEP program, schedule meetings, conduct IEP meetings or participate on IEP team.
- Consult and partner with other with speech-language pathologists in private and hospital settings,
- Report students' progress quarterly to parents, and counsel parents.

Externships

Hutchinson Public Schools, USD 308, Hutchinson, KS (Spring 20xx)

- Full-time clinical externship experience lasting 8 weeks
- Evaluated and treated children ages preschool through 6th grade, included children with articulation, language, voice, and fluency disorders.

Hutchinson Hospital, Hutchinson, KS (Spring 20xx)

- Full-time clinical externship experience lasting 8 weeks
- Assisted with evaluation and treatment of in-patients and out-patients with aphasia, apraxia, dysarthria, dysphagia, and cognitive deficits.

Practicum Experience

Herndon Speech-Language-Hearing Clinic, Hays, KS (Fall 20xx-Spring 20xx)

- Provided services to an adult with Broca's aphasia, apraxia of speech, and dysarthria. Services focused on guiding the client to increase her length of utterance, to use self-cueing strategies in order to increase naming skills, and to decrease apraxic episodes.
- Assisted an adult with Wernicke's aphasia. Services focused on improving the client's ability to follow commands, to appropriately answer yes/no questions, and on improving attentional skills.
- Aided college-age client with a traumatic brain injury and history of learning disabilities. Services focused on increasing the client's memory and organizational skills, and on phonemic awareness skills.

- Assisted child with an oral myofunctional disorder with deficiencies in speech, swallow, and rest postures.
- Provided evaluation and treatment of adults of varying ages with voice disorders, including paradoxical vocal fold motion and essential tremor.
- Experienced in hearing screening and complete audiological evaluations of children and adults.
- Provided treatment to two college students with fluency disorders.
- Provided services to a college student with written language deficits. Services focused on improving her organization and form in writing.
- Evaluated children and adults with speech and language delays/disorders.
- Provided group and individualized aural rehabilitation to adults. Services focused on improving auditory and visual skills, increasing assertiveness, and improving communication strategies.
- Services were provided to a child with a phonological processing disorder.
- Provided treatment to a young child with a fluency disorder.

Tiger Tots Nurtury Center, Hays, KS (Spring 20xx)

- Planned and carried out language-enhancing activities with children.
- Provided individualized language and speech services to two preschool children.

Hays Medical Center, Hays, KS (Fall 20xx)

- Assisted with evaluation and treatment of in-patients and out-patients with aphasia, dysarthria, dysphagia, and cognitive deficits.
