[FHSUMAJORS.COM](https://www.fhsu.edu/academic-advising-and-career-exploration-center/majors-and-graduate-programs-fair)

This is a free career assessment tool to help you begin identifying major options at FHSU. The assessment takes inventory of your academic skills and work interests to identify the top ten majors offered at FHSU that may best suit you. Course requirements, department contact information and aligning occupations are also provided.

WHAT CAN I DO WITH A MAJOR IN...

What Can I Do With A Major In . . . provides information sheets for each major offered at FHSU. Information sheets give a description of the major, careers that align, transferrable skills and additional resources that can advance your major exploration process.

MAJORS AND GRADUATE PROGRAMS FAIR

The Majors and Graduate Programs Fair is an annual fall event. The fair provides current students with valuable information about educational opportunities offered at FHSU. Faculty, staff and students from all academic areas and a variety of support services share information to aid you in developing and assessing your educational plan.

UNIV 100: MAJOR AND CAREER EXPLORATION

This one credit hour elective, is designed to teach and guide students through the decision-making and information gathering process. This class is a great option for a student needing to evaluate or re-evaluate their educational plan, but that struggles to find the time to dedicate to the process. Through the use of interactive assignments and career assessment tools, student will gain self awareness, major and career knowledge and actionable steps to help them make effective academic decisions.

CAREER EXPLORATION

Career Exploration is an in-person service provided to assist currently enrolled students through the decision-making and information gathering processes that enable identification, confirmation and selection of an academic major. Career Exploration allows a student the opportunity to meet one-on-one with a trained career advisor. A student can expect to have three, one-hour meetings with their career advisor. Each meeting is a week apart, to allow time for research and reflection. The career exploration process takes a minimum of three weeks and cannot be done in a consolidated timeframe. Students interested in learning more about this service or wishing to schedule their first appointment should call the AACE Center at 785-628-5577.
