MANAGEMENT'S DISCUSSION AND ANALYSIS

The following Management's Discussion and Analysis (MD&A) provides an overview of the financial performance of Fort Hays State University (the "University") based on currently known facts, decisions and conditions and is designed to assist readers in understanding the accompanying financial statements. These financial statements are prepared in accordance with Government Accounting Standards Board (GASB) principles. During 2001-2002, Fort Hays State University implemented GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and local Governments," and Statement No. 35, "Basic Financial Statements – and Management's Discussion and Analysis for Public Colleges and Universities." This discussion – along with the financial statements and related footnote disclosures – has been prepared by management and should be read in conjunction with the statements and footnotes. The financial statements, footnotes, and this discussion are the responsibility of management.

USING THIS ANNUAL REPORT

This report consists of the three financial statements, the statement of net assets, the statement of revenues, expenses, and changes in net assets, and the statement of cash flows. The notes to the financial statements present additional information to support the financial statements. Their purpose is to clarify and expand on the information in the financial statements. As noted above, the University implemented new accounting standards issued by GASB during fiscal year 2002. These new standards changed the focus of our financial statements to a comprehensive one-look at the University as a whole (opposed to the traditional presentation of fund groups). Other significant changes to the financial statements included:

- GASB Statement No. 35 categorizes revenues into operating and non-operating. Significant recurring sources of revenue are now shown as non-operating, including state appropriations and investment income. Public universities depend heavily on these revenues to fund their programs and services. As a result, the University will always report a loss from operating activities.
- Student tuition and fees are now reported net of scholarships funded from university resources. Prior to fiscal year 2002, all scholarships were reported as a scholarship expense.
- GASB Statement No. 35 also requires the University to report accumulated depreciation on its capital assets.

STATEMENT OF NET ASSETS

The Statement of Net Assets presents the assets, liabilities, and net assets of the University at a point in time (at the end of the fiscal year). Its purpose is to present a financial snapshot of the University. The statement of net assets includes all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector institutions. Under the accrual basis of accounting all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Within the Statement of Net Assets, assets and liabilities are further classified as current or non-current. Current classification distinguishes those assets that are highly liquid and available for immediate and unrestricted use by the University, and those liabilities likely to be settled in the next 12 months.

Net assets are divided into three categories:

1. **Invested in capital assets, net of debt**, indicates the university's equity in property, plant, and equipment owned by the University.
2. **Restricted net assets** are further divided into two subcategories, non-expendable and expendable. The corpus of non-expendable restricted resources is only available for investment purposes. Expendable restricted net assets are available for expenditure by the University but must be spent for purposes as

determined by donors and/or external entities who have placed time or purposes restrictions on the use of the assets.

3. **Unrestricted net assets** are available to the University for any lawful purpose of the institution.

Total Assets at June 30, 2003 were \$73,236,692, an increase of \$5,069,832 (7.4%). Capital net assets comprised 67.2 %, or \$49,227,361 of the \$73,236,692 in assets.

Total liabilities were \$16,056,272 at June 30, 2003, an increase of \$4,495,982 (38.9%) compared to \$11,560,290 at June 30, 2002. Long-term liabilities comprised 47.5 %, or \$7,633,811 of the liabilities.

Total net assets at June 30, 2003 were \$57,180,420, a \$573,850 increase over the prior year, or a .01% increase in net assets. The breakout of net assets is shown below:

Capital Assets, net of related debt.....	\$46,841,398
Restricted net assets	9,421,365
Unrestricted net assets	917,657
Total net assets.....	\$57,180,420

STATEMENT OF REVENUES, EXPENSES, AND CHANGES IN NET ASSETS

The Statement of Revenues, Expenses and Changes in Net Assets presents the total revenues earned and expenses incurred by the University for operating, non-operating and other related activities during a period of time. Its purpose is to assess the University's operating results.

Revenues

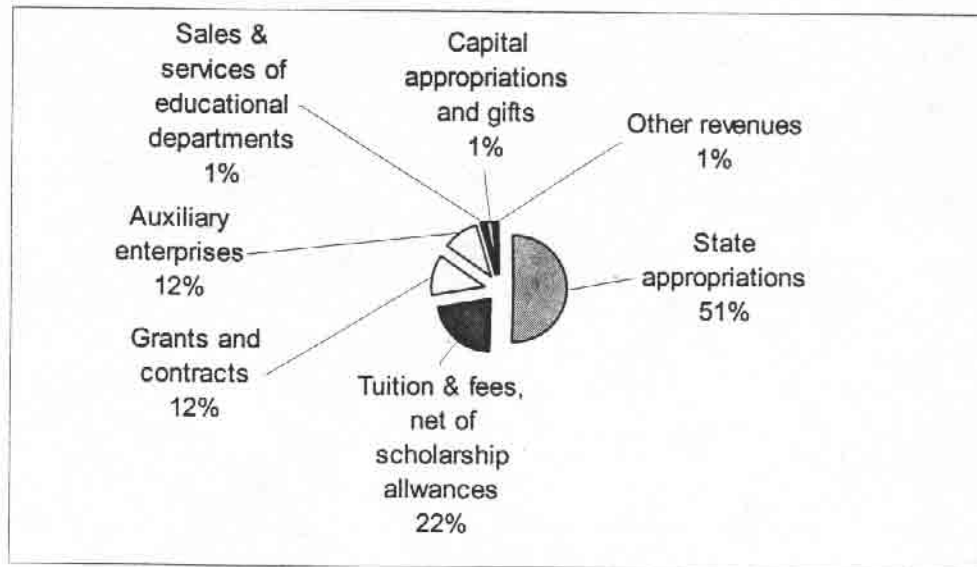

Operating revenues at the University as of June 30, 2003 increased by 3.4% over the previous fiscal year. The following is a brief summary of the significant changes:

- Student fee revenues, after scholarship allowances, were \$12.9 in 2003, compared to \$11.1 million in 2002. This increase is a result of a 5.01% tuition increase approved by the Kansas Board of Regents for fiscal year 2003 and a 13.6% increase in total headcount. The goal of the tuition increase, which was the result of collaboration between University Administration & University students, was to provide additional funds to the University to improve or enhance student education while State appropriations decreased significantly. The increase in total headcount was a result of the lowest increase in tuition among the Kansas Regents Universities and a continued effort to expand our Virtual College on the national and international level resulting in a 60.1% increase in headcount over the Fall of 2001
- Auxiliary enterprise revenues increased from \$6.1 million to \$7.0 million in 2003. Auxiliary enterprises include Housing, Athletics, Parking, Student unions, University health services, and a variety of other smaller services.
- Other operating revenue decreased from \$1.1 million to \$.4 million in 2003.

Total non-operating revenues were down 5.6% from the prior year from \$31.9 million to \$30.2 million. The following is a brief summary of the significant changes:

- State appropriations, the largest single source of revenue at the University, decreased from \$31.9 million to \$30.2 million, or 5.3%.

In summary, total revenues decreased by \$2.22 million, from \$61.88 million to \$59.66 million, an overall decrease of 3.6%. The compositions of these revenues are displayed in the following graph:

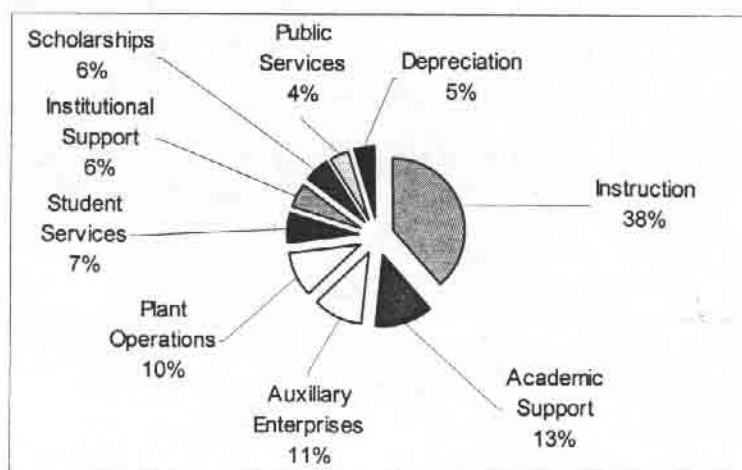

Expenses

Operating expenses were \$59.1 million for the 2003 fiscal year. This was a decrease over the prior year of \$.7 million, or 1.2%. The following is a brief summary of the significant changes:

- Public service increased by 34% in 2003 to \$2.5 million. Public service expenses include the State Small Business Administration Program, the Senior Companion Program, the Foster Grandparent Program, the Americorps Program, and various other community related programs funded from sources other than state appropriations or tuition fees.
- Student services support increased 12.3% in 2003. Student programs continue to be enhanced maintaining a consistency between tuition increases and funding of student programs..
- Institutional support decreased by 7% in 2003 as an impact of decreased state appropriations and university's efforts to operate in a fiscally responsible manner.. All departments including those primarily dedicated for administration were forced to evaluate expenses in order to be more efficient with fewer funds.
- Operations and maintenance of plant expenses decreased 9.9% from the prior year due to state appropriation budget cuts and the efforts of the university to operate in a fiscally responsible manner.
- Scholarships and fellowships support increased by 41%. Increases in enrollment directly affect the amount of student grants and scholarships awarded based on the increased number of students showing financial need. This need is met through increased Pell grants and Stafford loans being awarded along with an increase of private and community scholarships

Non-operating expenses are represented primarily by interest expense. This amount increased by 10% from the prior year as the result of bond retirements incurred during this fiscal year.

The composition of total expenses, including operating and non-operating are displayed below:

Extraordinary Items

The University did not have any special and extraordinary items in 2003.

Endowment Expenses Paid On Behalf of University

The Fort Hays State University Endowment Association (FHSUEA) a separate not-for-profit organization whose primary mission is to raise funds for the University, provides direct and indirect support to the University that is not entirely reflected in the University's Statement of Revenues, Expenses and Changes in Net Assets. Expense items paid on behalf of the University by FHSUEA include expenses such as equipment, miscellaneous office expenses and travel. Total University support provided by FHSUEA equaled approximately \$49,789 and \$227,965 in 2003 and 2002, respectively.

Net Assets

Net assets increased by \$573,850 over the previous fiscal year. This increase in net assets can be attributed to increases in enrollment headcount and its associated increase in revenues, offset with the purchase of revenue bonds for housing capital improvements.

STATEMENT OF CASH FLOWS

The Statement of Cash Flows presents cash receipts and payment of the University during a period of time. Its purpose is to assess the University's ability to generate future net cash flows and meet its obligations as they come due.

CASH FLOWS FOR THE PERIOD

	June 30, 2003	June 30, 2002
Net cash provided (used) by:		
Operating activities	\$(27,549,786)	(30,330,349)
Non-capital financing activities	30,186,963	32,067,349
Capital and related financing activities	1,957,198	(1,280,561)
Investing activities	(327,168)	53,194

Net increase in cash	4,267,207	509,633
Beginning cash and cash equivalent balances	11,284,094	10,774,461
Ending cash and cash equivalent balances	15,551,301	11,284,094

Cash flows from operating activities will always be negative since GASB requires state appropriations to be reported as cash flows from non-capital financing activities. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities show all uses of cash and cash equivalents to purchase investments, and all increases in cash and cash equivalents as a result of selling investments or earning income on cash and investments.

Cash used by operating activities decreased \$2.8 million. This decrease in the use of cash was impacted by the net increase in tuition and housing cash activity, a decline in federal grants cash activity as well as a decline in overall operating expenses.

Non-capital financing activities decreased by \$1.9 million. The primary item impacting this change was the decrease in state appropriations.

Cash flows from capital and related debt increased by \$3.2 million. This increase was primarily due to the issuance of \$6.5 million in bonds and the retiring of \$2.1 million in bonds.

Cash flows from investing activities decreased by \$.4 million. The key factor in this decrease was the purchase of investments with the proceeds from the \$6.5 million bond issuance.

CAPITAL ASSETS

The University continued to invest in capital assets during the 2002-2003 fiscal year. Detailed information regarding capital asset additions, retirements & depreciation is available in Note 6 to the financial statements.

The following is a brief summary of the construction projects that were commenced during the current fiscal year:

McMindes Hall Renovation:

In May 2003, work commenced on a \$839,000 construction project at McMindes Hall. This project provided for complete renovation of Residential Life's principal dining facility. The existing conventional serving line system was replaced with a new food court style system with (5) primary stations. The renovation also provided a 300 seat dining area. This project is scheduled to be completed in October 2003.

Wooster Place Renovation:

In May 2003, work commenced on a \$1,604,115 construction project at Wooster Place I & II. This project provided for the complete interior renovation of the 84 unit apartment complex. This work included new roofing, HVAC systems, plumbing improvements, interior finishes, fire alarm system, casework, doors, gaurdrails and appliances. This project is scheduled to be completed in May 2005.

Lewis Field Stadium, Track and Turf replacement:

In June 2003, work commenced on a \$ 748,900 construction project at Lewis Field Stadium. This project provided for the installation of a new synthetic track surfacing, new artificial turf surfacing and new stadium lighting. The track and turf products replaced deteriorated surfaces which were installed 10 years previous. This project is scheduled to be completed in September 2003.

McCartney Hall Third Floor Remodel:

In June 2003, work commenced on a \$410,000 remodel project at third floor McCartney Hall. This project provides for remodeling of third floor office space, classroom space, and main corridor improvements. This work also includes new HVAC and Electrical systems last replaced in 1970. This work is scheduled to be completed by June 2004.

DEBT ADMINISTRATION

At June 30, 2003, the University had \$6.47 million in debt outstanding. New debt was issued to finance the redemption of outstanding Housing System Revenue Bonds, Series E 1994, in the amount of \$1,332,071; the redemption of outstanding Lewis Field Stadium Revenue Bonds, Series C 1993, in the amount of \$582,877; and to finance the new Housing System Revenue Bonds, Series 2003 D-1, in the amount of \$3,600,000 and to finance the new Lewis Field Revenue Bonds, Series 2003 D-1, in the amount of \$748,000.

The bonds have been assigned a rating of "AAA" by Standard & Poore's Ratings Services, on the basis of the Financial Guaranty Insurance Policy to be issued with respect to the Bonds by Ambac Assurance. In addition, Standard and Poore's Ratings Services has assigned the Bonds an underlying rating of "A-". More detailed information about the University's long-term liabilities is available in Notes 8 and 9 to the financial statements.

ECONOMIC OUTLOOK

The State of Kansas revenues appear to be stabilizing for the 2004 fiscal year. The State of Kansas does provide approximately 51% of the total resources for the University during a fiscal year. Appropriations for fiscal year 2004 are currently set at \$30.4 million consistent with fiscal year 2003. Unstable state revenues required the governor to maintain the reduction in appropriations implemented in the 2002 fiscal year which resulted in a continued 5.2% decrease in funding for the 2003 fiscal year compared to the 2002 fiscal year levels.

The overall financial position of the University continues to be strong. Enrollment for the academic 2003-2004 year is expected to significantly increase due to our continued efforts to maintain affordable tuition rates which continue to be the lowest in the Kansas Regent's system. Continued recruitment in the international educational market will also show significant increases in headcount in our virtual college during the next several years.

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. The financial statements have not been audited.

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Organization. Fort Hays State University is a regional university principally serving western Kansas. The University's primary emphasis is undergraduate liberal education, which includes the humanities, the fine arts, the social/behavioral sciences and the natural/physical sciences. The University, located in Hays, Kansas, has an undergraduate enrollment of approximately 6,297 and a graduate enrollment of approximately 1,740. The University is accredited by the North Central Association of Colleges and Schools and is governed by the Kansas Board of Regents and is an agency of the State of Kansas. As an agency of the State of Kansas, the University is included in the financial report of the State of Kansas.

Financial Reporting Entity. As required by accounting principles generally accepted in the United States of America, these financial statements present the combined financial position and financial activities of the University and the following blended component units: the Fort Hays State University Alumni Association, the Fort Hays State University Athletic Association and the Sternberg Museum Foundation.

A blended component unit is an entity that is legally separate from the University, but is so intertwined with the University that it is, in substance, part of the University. Such entities are reported as part of the University (i.e., they are blended into the statements of the University).

The financial activity and balances of the Fort Hays State University Endowment Association are not included in the financial statements of the University as the Association is a legally separate entity and the University does not appoint a voting majority of the Association's governing body.

Basis of Accounting. For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The University has the option to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989, unless FASB conflicts with GASB. The University has elected to not apply FASB pronouncements issued after the applicable date.

Cash Equivalents. For purposes of the statement of cash flows, the University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Investments. The University accounts for its investments at fair value in accordance with GASB Statements No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the Statement of Revenues, Expenses, and Changes in Net Assets.

Accounts Receivable. Accounts receivable consists of tuition and fee charges and auxiliary enterprise services provided to students. Accounts receivable also include amounts due from the Federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the University's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Inventories. Inventories are carried at cost.

Noncurrent Cash and Investments. Cash and investments that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the Statements of Net Assets.

Capital Assets. Capital assets are recorded at cost at the date of acquisition, or fair market value at the date of donation in the case of gifts. For equipment, the University's capitalization policy includes all items with a unit cost \$5,000 or more, and an estimated useful life of greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if the related project cost exceeds \$100,000. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred.

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, 25 years for infrastructure and land improvements, 8 years for equipment, and 5 years for vehicles. Depreciation for buildings is computed using a componentized building depreciation study.

Deferred Revenues. Deferred revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Deferred revenues also include summer school tuition not earned during the current year and amounts received from grant and contract sponsors that have not yet been earned.

Compensated Absences. Employee vacation pay is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as accrued compensated absences in the Statement of Net Assets, and as an expense in the Statement of Revenues, Expenses, and Changes in Net Assets.

Deposits Held In Custody For Others. Deposits held in custody for others consists primarily of student organizations' monies administered by the University.

Noncurrent Liabilities. Noncurrent liabilities include principal amounts of revenue bonds payable, capital lease obligations with contractual maturities greater than one year, and estimated amounts for accrued compensated absences that will not be paid within the next fiscal year.

Net Assets. The University's net assets are classified as follows:

Invested in capital assets, net of related debt: This represents the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets such amounts are not included as a component of invested in capital assets, net of related debt.

Restricted net assets – expendable: Restricted expendable net assets include resources in which the University is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Restricted net assets – nonexpendable: Restricted nonexpendable net assets consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net assets: Unrestricted net assets represent resources derived from student tuition and fees, state appropriations, and sales and services of educational departments. These resources are used for transactions relating to the educational and general operations of the University, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff.

Tax Status. As a state institution of higher education, the income of the University is generally exempt from federal and state income taxes under Section 115(a) of the Internal Revenue Code; however, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B).

Classification of Revenues. The University has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as 1) student tuition and fees, net of scholarship discounts and allowances, 2) sales and services of auxiliary enterprises, 3) most federal, state and local grants and contracts, and 4) interest on institutional student loans.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, such as state appropriations and investment income.

Scholarship Discounts and Allowances. Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, state, or nongovernmental programs, are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship discount and allowance.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

NOTE 2 – Investments

Of Fort Hays State University's total investments of \$677,732, \$209,443 is administered by the Fort Hays State University Alumni Association. The Kansas Development Finance Authority invests \$468,289 of the total. These monies represent bond proceeds and reserve requirements.

NOTE 3 - Accounts Receivable

Accounts receivable net of estimated uncollectible amounts, consisted of the following at June 30, 2003:

Tuition & Fees	\$	84,245
Auxiliary		39,213
Grants & Contracts		187,409
Other		<u>0</u>
	\$	<u>310,867</u>

NOTE 4 – Inventories

Inventories consisted of the following at June 30, 2002:

Museum Store	\$	68,182
Physical Plant		17,472
Office Supplies		150,256
Other		<u>4,769</u>
	\$	<u>240,679</u>

NOTE 5 - Loans to Students

Student loans made through the Federal Perkins Loan Program comprise substantially all of the loans to students at June 30, 2003. The Program provides for cancellation of a loan at rates of 10% to 30% per year up to a maximum of 100% if the participant complies with certain provisions. The federal government reimburses the University for amounts cancelled under these provisions.

As the University determines that loans are uncollectible and not eligible for reimbursement by the federal government, the loans are written off and assigned to the U.S. Department of Education. The University has provided an allowance for uncollectible loans, which, in management's opinion, is sufficient to absorb loans that will ultimately be written off. At June 30, 2003, the allowance for uncollectible loans was estimated to be \$275,857.

NOTE 10 - Lease Obligations

Fort Hays State University is obligated for the purchase of certain equipment funded through the issuance of blanket financing agreements in the amount of \$161,509 as of June 30, 2003. Payments to liquidate these obligations are scheduled as follows:

Fiscal Year 2004 Total	29,157
Fiscal Year 2005 Total	29,157
Fiscal Year 2006 Total	22,088
Fiscal Year 2007 Total	22,088
Fiscal Year 2008 Total	22,088
Fiscal Year 2009 Total	22,088
Fiscal Year 2010 Total	14,843
Total	<u>\$ 161,509</u>

At present, the State of Kansas has no method for recording the interest expense associated with these payments. Therefore, equipment funded by these agreements is capitalized at the date of payment and at the payment amount.

NOTE 11 - Retirement Plans

University employees participate in two separate retirement programs. Classified employees participate in the "Kansas Public Employees Retirement System" (KPERS). This defined benefit program is funded through contributions by the University and the individual employees. The University contributed \$317,722 during fiscal year 2003 and individual employees contributed \$294,248. Unclassified employees participate in the "Board of Regents Retirement Program". This defined contribution program is funded through contributions by the University and the individual employees. The University contributed \$1,688,822 during fiscal year 2003 and individual employees contributed \$1,084,580. In addition, \$9,738 was contributed to KPERS by the employees for prior service benefits.

FORT HAYS STATE UNIVERSITY
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2003

NOTE 12 - Commitments and Contingent Liabilities

The University maintains specific insurance coverage as allowed by the State of Kansas and as required by outstanding bond issues. To a large extent, the State follows a policy of self-insurance; therefore, most claims against the University require legislative approval (and potential funding) prior to settlement. The University is not aware of any significant outstanding claims as of June 30, 2003.

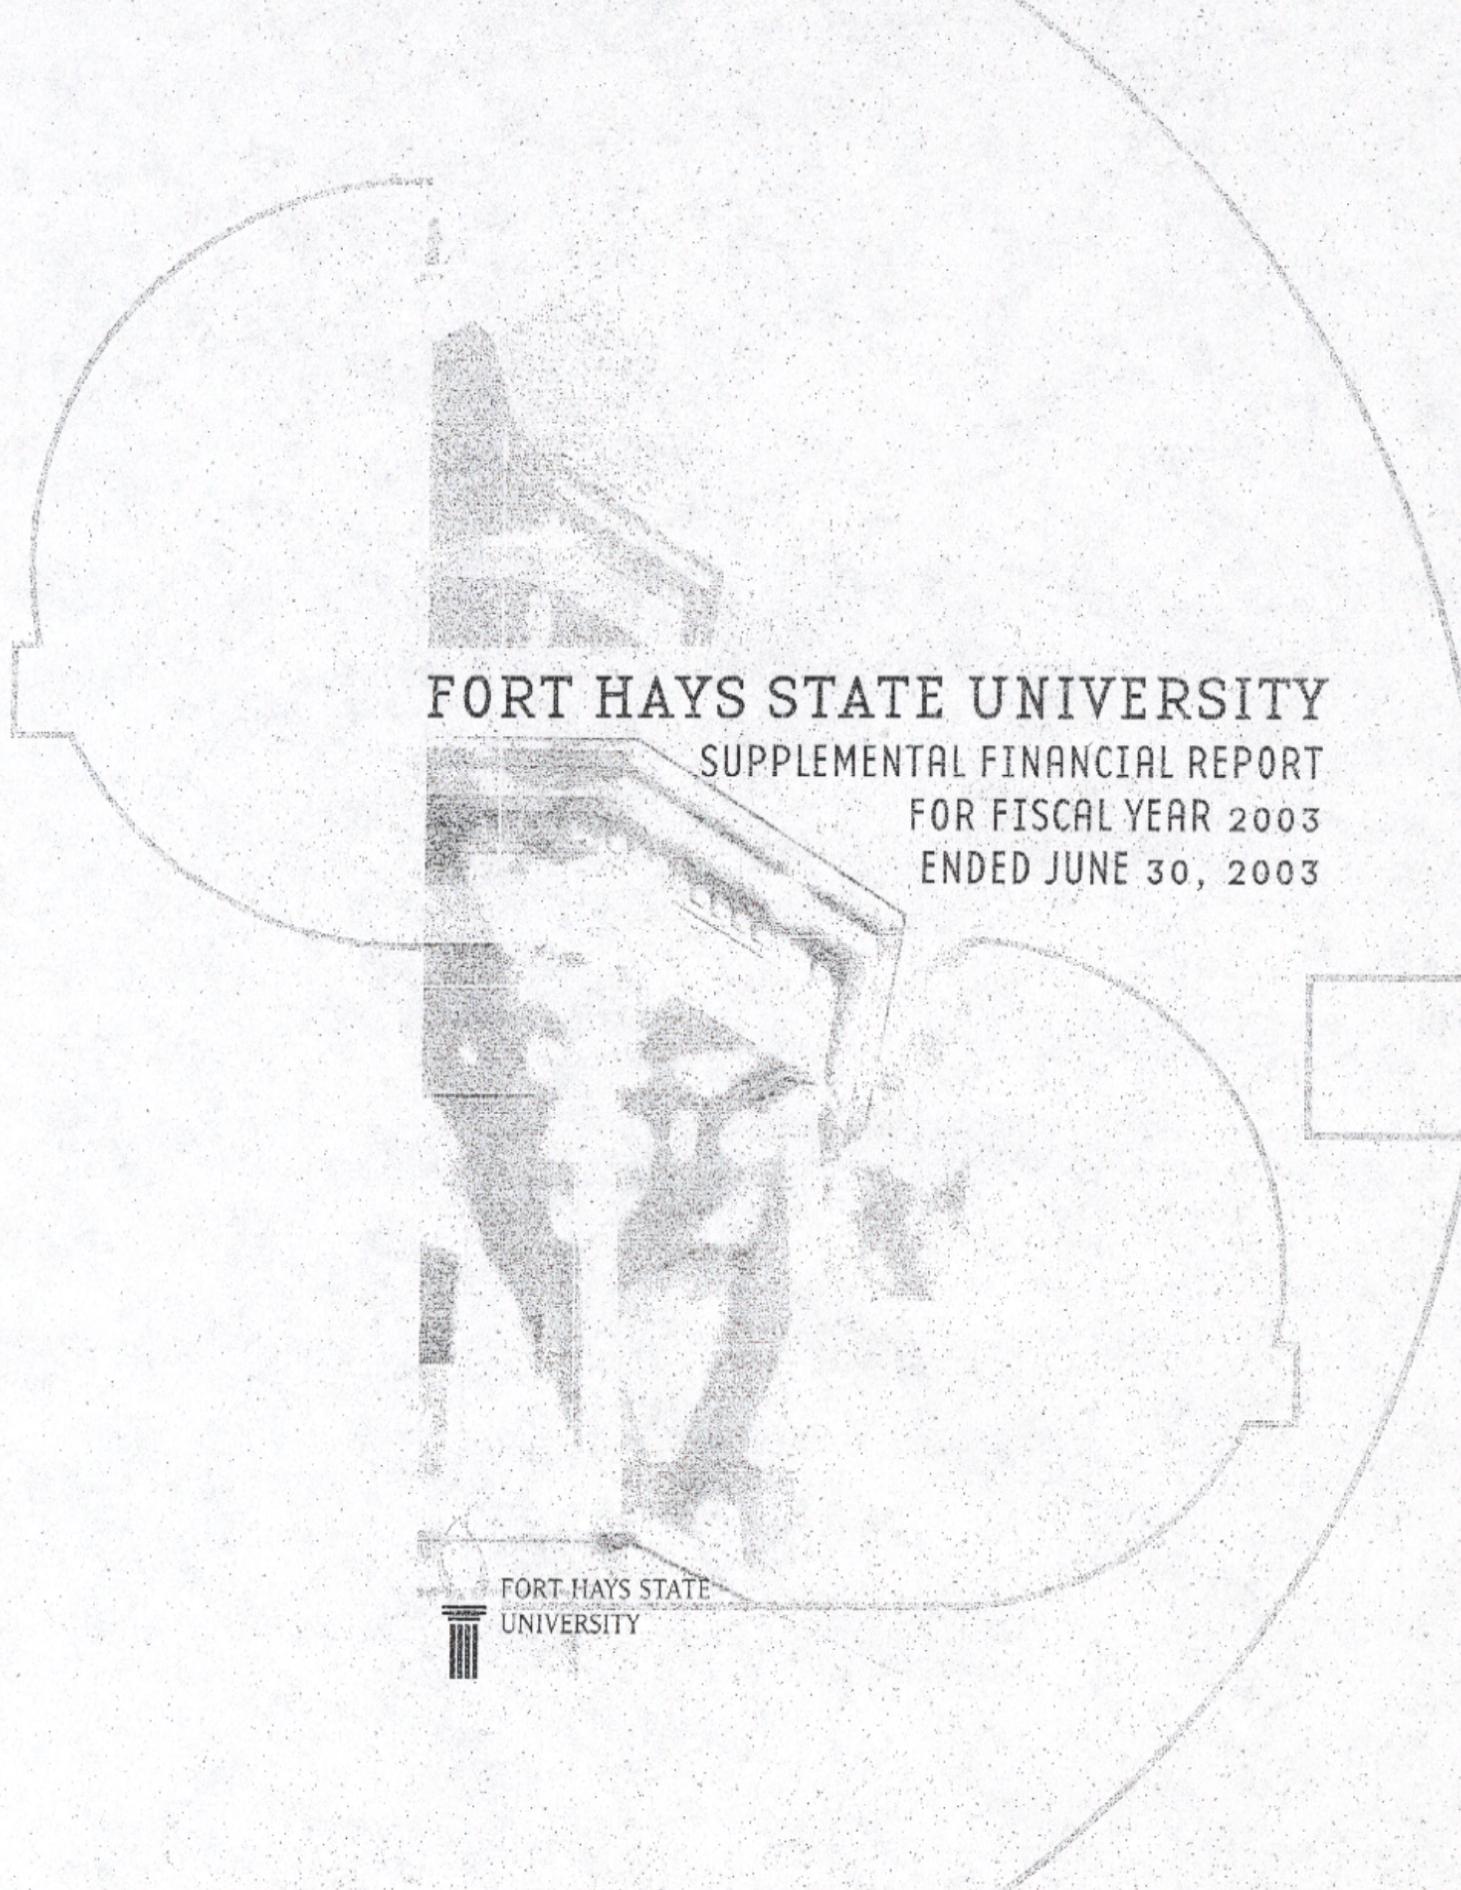

The State does not insure buildings and contents valued under \$0.5 million and does not insure State-owned automobiles for bodily injury and property damages of State employees. State buildings valued over \$0.5 million are insured against catastrophic loss with a \$2.0 million deductible per occurrence and a maximum annual liability of \$100 million per occurrence.

In the normal course of operations, the University receives grants and other forms of reimbursement from various Federal and State agencies. These activities are subject to audit by agents of the funding authority, the purpose of which is to ensure compliance with conditions precedent to providing of such funds. University officials believe that the liability, if any, for any reimbursement that may arise as the result of audits, would not be material.

NOTE 13 - Natural Classifications With Functional Classifications

The University's operating expenses by functional classification are as follows:
