### 3. TEXTBOOK AND COURSE MATERIALS

No Required Textbooks.

This course requires you to have regular access to a camera or equivalent work. Acceptable cameras are DSLR (Digital Single Lens Reflex), mirrorless, 35mm, other analog cameras, or as appropriate to your artwork. Alternative photographic processes can be used in place of lens-based work.

### 4. COURSE DESCRIPTION

This is an advanced level course focusing on research and experimentation in the medium of photography. Each student will be required to self-examine their skills and interests to then develop their practice. Regular meetings with the professor for consultation and development in technical and conceptual progress will be needed. Research and development on interests and making comparisons and distinctions made to other artists and movements will also be necessary.

### 5. COURSE OBJECTIVES

- Develop a personal practice in researching contemporary and historical artists and groups related to student's content
- Articulate and discuss formal and conceptual aspects of personal work, as well as classmates work in critiques and discussions
- Strengthen content of work through experimentation and exploration of the medium
- Discuss conceptual ideas and apply critical thinking to readings and research

## 6. TEACHING, LEARNING METHODS, & COURSE STRUCTURE

Teaching will be active discussions exploring personal artwork. Learning will come from discussions, readings, research, and most importantly through the creation of artwork. The more production that is done, the more beneficial it will be for the student. Individuals will need to determine goals and work output needed for the semester.

Average expectations of collegiate study are two to three credit hours spent per credit hour of a course, which means six credit hours outside of class time for a three-credit course. Emphasizing that is for **average, typical, mediocre, or ordinary** students, and that is for all studies at a college.

Use of a notebook and other materials is vital to keep organized, meet deadlines, and to not fall behind.

## 7. ASSESSMENT METHODS AND GRADING SCALE

Grading Scale

90 - 100 = A

80 - 89 = B

70 - 79 = C

60 - 69 = D

0 - 59 = U

## 8. STUDENT HELP RESOURCES

Students have access to academic services, technical support, and student services at Fort Hays State University. You can find the resources online at <https://www.fhsu.edu/student-affairs/students>

## 9. COURSE POLICIES

### Class Attendance

The first week of class will be used to establish a schedule. Meet times are required unless discussed beforehand. Group and individual meetings will be scheduled as well, and those times must be adhered to. Frequent absences or missing meetings (two or more) may result in a lowered grade for the course.

### Class Participation & Late Work

This is a self-directed class with guidance. It is up to the student to set achievable goals that helps them pursue their interests while maintaining a steady flow of production and keeping to deadlines set.

### Electronic Devices

All electronic devices must not be a distraction from learning or instruction. Please silence all alarms and be aware of your use of them. If you are found to be frequently using your device(s) and/or interrupting the class, you will be asked to leave and not come back for the remainder of the day. There will not be extra instruction time outside of class hours provided to you if this happens.

### ChatGPT and all other A.I.

Students can use AI-generated texts (images) on assignments in this course if instructor permission is obtained in advance and content generated is properly cited. Unless given permission to use AI tools, each student is expected to complete each assignment without substantive assistance from others, including AI. Unauthorized or suspected use of AI will be subject to the FHSU Academic Honesty Policy and may result in a 0 for the assignment, failure of the course, and, if warranted, expulsion from FHSU.

### Instructor's Art Academic Honesty Policy.

In an art class, academic honesty means your art should not be copied from another artist. If you have subject matter interests, then research and develop those interests, they will lead to unique solutions and content. If you continue to develop a large set of skills, try to find your special way of combining those skills into something new.
