# STATEMENT

*Final Draft* encapsulates the essence of our journey as designers and individuals. Just as our projects undergo multiple drafts and phases, we, too, are continually evolving, shaping ourselves into our final drafts. This exhibition offers a glimpse into the intricate process of graphic design, showcasing that everything is perpetually in motion, open to refinement and enhancement. It serves as a testament to the fact that design is a continuous work in progress, with endless possibilities and approaches.

In the world of graphic design, there is no such thing as "done." Each project represents a step forward in our evolution, a manifestation of our creativity and dedication. With 15 different students contributing their unique visions and talents, *Final Draft* adds another layer to the concept, emphasizing the diversity and richness of perspectives within our community. Join us as we celebrate the spirit of *Final Draft*, where the journey of design is as enriching as the destination.

# THANK YOU!

To Karrie Simpson Voth, Chaiwat Thumsujant, Thomas Giebler, and the grad students for the time, knowledge, and care you have given us over the years. You have helped shape us into the designers and people we are today. Also, to the FHSU Art and Design Program, University Printing Services, family and friends, and the generous businesses and individuals below that helped make this all possible.

Thank you to the Chai-walks, Starbucks runs, and sleepless nights that made this program all the better. Finally, we extend our gratitude to each member of the senior class, as our collective experience would not have been the same without every one of you. We are excited for the journey that lies ahead for us all!

Focuste

*Art Supplies*

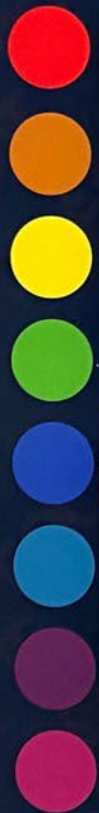

Graphite pencil box and pencils, prisma colored pencils and box, matte and gloss fixative, 2 masking tapes, inkjet paper, enhanced matte paper, 2 erasers, and mixed media sketchbook.

# FOCUSTE

Focuste, a brand of art supplies, finds its inspiration in the notion of a "focus state," which played a pivotal role in my personal journey of discovery. Drawing from the elements of photography that guided me to my own Focuste, the product line incorporates a range of colors to tackle the challenge of effectively discerning color values. The inclusion of a focal point in the design serves as a visual representation of the inherent difficulties in distinguishing colors, encapsulating the essence of these challenges. With its color-centric approach, Focuste fosters an inclusive environment that mirrors my introduction to design through the perspective of photography.

# FOCUSTE

## FOCUS·TE

(adj.)

Derived from the concept of "focus state." Refers to the intentional and heightened state of concentration.

## MISSION

There are nearly 680,000 abortions a year in the United States. Last year in Kansas, there were 12,318 recorded abortions. March For Life: In Bloom offers a new approach to advocating for the lives of unborn babies. It's goal is to provide a more welcoming, educational, and engaging way to encourage and inform people on the right to life!

# LET YOUR VOICE BE HEARD!

**ABOUT THE PROJECT:** These posters are part of a project that is done each year to shed light on political and social issues that are happening in our state, country, and world. Its purpose is to create a component of civic engagement in our curriculum which is an integral part of being a well-rounded citizen. It is also to use the students' design talents to express their own opinions—no matter if we agree with them or not—while implementing historical styles of design. It is not an easy process and requires an incredible amount of research and discussion. They are encouraged to look at all types of news sources to get a balanced diet and to be able to adequately develop their concepts and defend their own viewpoints.

One of the main goals of this project is to help students find their political voice, develop thoughts and opinions, have through conversations with one another (as well as with the public), and to be actively engaged citizens of the world. The posters in this collection represent the first amendment of the freedom of speech, which we are so fortunate to have in this country. Many of them create emotional responses to controversial and political issues in order to raise awareness and to share a different point of view, regardless of agreement or disagreement. We encourage respectful dialogue through an exchange of viewpoints and shared information.

Opinions and statements made as part of this class assignment do not reflect the opinions of Fort Hays State University.

Had an exciting night with @Putin and @Xi! Can't wait to see you guys again, I'll bring gifts :)

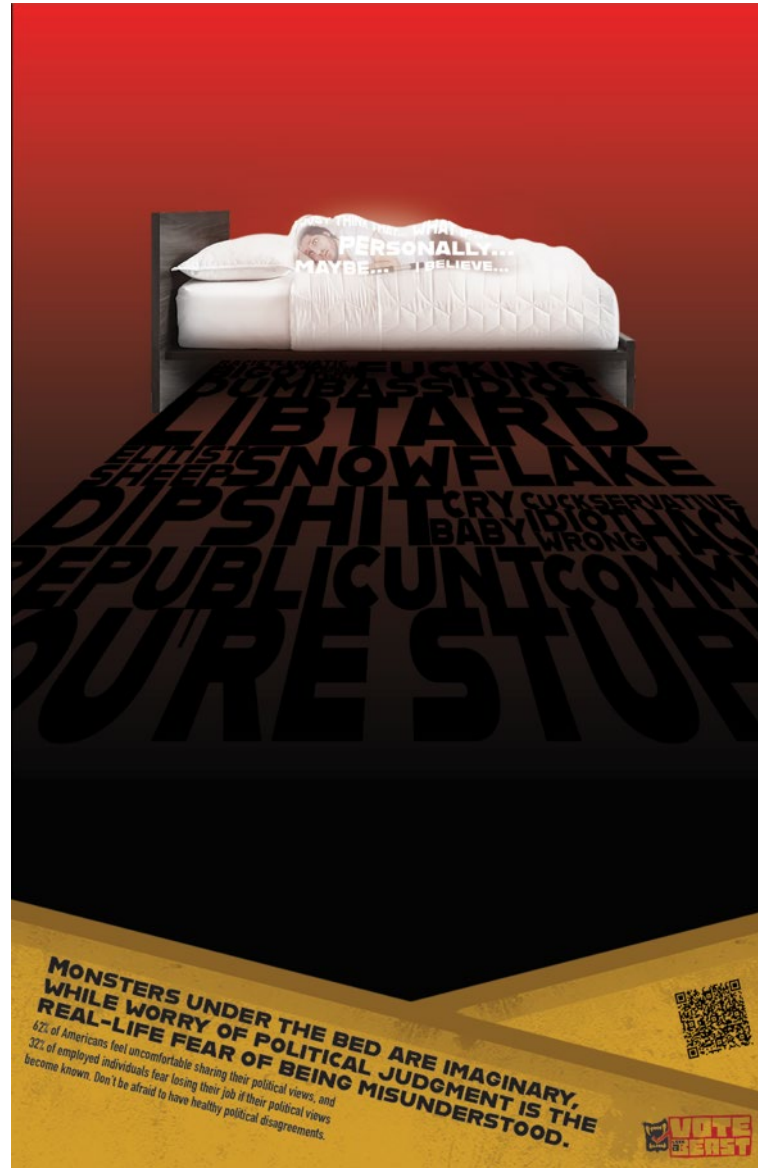

A bromance between President Vladimir V. Putin of Russia, North Korean leader Kim Jong-un, and Chinese President Xi Jinping could conceivably intensify the war in Ukraine. This new relationship could lead to technological assistance and ramp up nuclear weapons programs that could lead to the beginning of World War 3.

and spice jar

Hello Chaiwan,

We are Tab Hei, a local gourmet sandwich shop with a not-so-local cuisine. As the only Tab Hei in the world, we prefer quality over quantity in everything we both make and represent, from the food to the walls. We are known for our broad variety of cultural ingredients in combination with a solid mixture of well known favorites, all tied together by the unique favours of the mava bean. Our story begins a century ago, when one woman dared to defy the rules set by society, and made her mark on the world in the form of the sandwich shop that been open for over eighty years.

Tabitha Kay was a curious and strong woman who was interested in seeing the world, she knew there was more than she could imagine out there. She wanted to meet new people, try new food, hear new songs, and endless more. As a younger woman in the mid 1920's, there was little respect and trust in her when not accompanied by someone. She was harassed whenever she left the house, and felt that being alone would put her in enough danger that she never travelled very far from home, not to mention had little money to begin her around the world journey, although she had been working at a bakery for the past few years and had saved enough to at least begin the journey. Her passion for the unknown was still too strong, so in the summer of 1925 she snuck out and rode her lake towards the ocean. After a few days, she found boats near the major docks in South Carolina, and discovered some with labels to South America. She boarded the boat, and began her journey.

What she hadn't thought about was that the money she made would not be useful where she was going. She got off the boat after a few days, and found herself in a place she had no idea how to describe. She explored the land and the country, travelling by train and meeting everyone possible along the way. She found much more dangerous activity than she could have imagined, but also more energy and love than she thought could be in one place. She travelled around the continent for years, making food and working for various people making what she knew best, bread. Along the way towards Mexico, she came across a bean, and it was unlike anything she'd ever seen. She wound up naming it, consuming it, and even brought her knowledge of the foreign dishes, bread, and her new beans to the country to learn of their spices and how to use this bean in new ways. She used this bean, her newfound food intrigue, and her past life to form as her payment and food in on her journey across the ocean to other continents. They loved it everywhere.

When she traveled back to America, she continued making the sandwiches and soups and sharing the mava bean to her hometown here in Charleston, South Carolina. Tabitha was onto opening a restaurant in 1940 by the name of Tab Hei, located only miles from where she grew up. Tabitha Kay was always glad to share other cultures with her country and always informed people of the large world around them. Her traditions have been carried on through her son and daughter, both co-owners of the business today. On behalf of our entire staff, we welcome you to our sandwich shop, and hope to see you time and time again. Come take our version of a trip around the world.

Sincerely,  
Macy and Justin Kay

# ITS IN OUR VEINS.

Create your masterpiece with our new Professional Quality Graphite Pencils.

# SYNERGI™

The genesis of Synergi's concept traces back to 1 Corinthians 12:12b, which inspired the term "synergy"—the collaborative effort to achieve more collectively than individually possible. Artists embody this ethos when they engage with tools like pencils or paintbrushes, with art supplies serving as the sinews of their craft. Synergi's abstract illustrations and vibrant pink hue emulate the essence of muscle, symbolizing strength and vitality. The objective was to craft visually appealing supplies that would not only inspire artists but also empower them to create stunning works of art.

**ISRAEL**

The Hamas has one agenda, to destroy Israel and to murder Jews. They reject any peace deal that had been offered by Israel. On October 7th 2023, They killed more than 1,400 people and seized at least 100 hostages. They are terrorists. Their actions are despicable. Israel is right to defend itself. we need to help.

The parts are separate from the potato.

Even though we are three years past the pandemic, attacks on Asian Americans continue to this day. As some people still blame them for starting the virus.

# WHO NEEDS FOOD WHEN YOU HAVE GUNS?

The government's priorities seem to favor military spending over addressing the needs of its own citizens who are facing hunger. Politicians are allocating \$75 billion for weapons in the Ukraine war, while it would only take \$25 billion to provide essential nutrition for hungry children and adults in our own nation. We should be making food for life and not weapons of death. You can support starving Americans by scanning the QR code below.
