

The 2020-2021 Student Government Association has had a strong start. The transition from the Demers/Musgrove administration to the Reiter/Homman administration has been smooth thus far. As we continue to serve our students and work through arising issues, we have accomplished numerous goals.

Throughout the summer, we have focused on the following while working with other shared governance groups.

- Hired and started training the new 2020-2021 Student Government Executive Staff.
 - Legislative Affairs Director: Crystal Rojas
 - Community Relations Director: Jayden Siebert
 - Treasurer: David Schulte
 - Administrative Assistant: Anthony Ventura
- Created a plan for Fall Senate meetings that will support keeping all senators and guests safe with social distancing guidelines in place.
- Worked with other Student Government Associations from KBOR schools to address and combat inequality on college campuses.
- Continued to familiarize student organizations with the newly reformed Allocations process and prepared presentations to further assist in the Fall.
- Discussed the future of the Campus Shuttle service for the Fall semester and how to safely serve students in need.
- Allow for student voices to be a part of the decision of whether or not to bring alcohol to Lewis Field Stadium and other campus events.
- Worked to grow the Student Emergency Assistant Fund and developed further strategies of distribution with assistance of The Foundation.

The 2020-2021 Student Government Association will host our first regular Senate meeting on August 20, 2020 at 7:00PM, location to be decided. We look forward to continue serving our students this upcoming year as well as working with numerous groups across campus.

Haley Reiter
2020-2021 Student Body President
