Executive Summary

The 2026 Kansas Speaks fall survey was conducted from September 23 to October 16, 2026. A panel of 603 adult residents of Kansas age 18 and older were surveyed online to assess their attitudes and opinions regarding various issues of interest to Kansas citizens. The statewide online panel survey finds:

Section 1: Overall Quality of Life in Kansas

- 48.9% of respondents indicated Kansas is a very good or excellent place to live, and 6.5% said Kansas is a poor or very poor place to live. The rating in 2026 was less positive than 2025 and 2024.
- Asked where they will be in 5 years, 61.9% of respondents said they would be living in the same community that they live in now, 12% said they would be moving to another location in Kansas, and 14.4% said they would relocate to a state other than Kansas. The percentage of respondents who intended to move out of Kansas has been consistent over the past three years.

Section 2: Economy

- 20.4% of respondents felt the state economy is very good or excellent this year, lower than 2025 and close to 2024. 17.5% felt the economy is poor or very poor, higher than the past two years.
- 11.2% of respondents felt that the Kansas economy was getting better in the last 12 months, lower than 2025 and 2024. 34.5% felt that it stayed the same in 2026, lower than in 2025 and in 2024. 48.6% felt the Kansas economy was getting worse, notably higher than in 2025 (36.1%) and in 2024 (37.6%).
- 49.4% of respondents were very concerned or moderately concerned about the Kansas economy threatening their own or their family's welfare, higher than in 2025 and 2024. 18.8% were not at all concerned, similar to the percentages in 2025 and 2024.
- 36.5% of respondents felt Kansas is on the right track, lower than in 2025 and 2024. 41.1% felt Kansas is on the wrong track this year, highest in three years.
- 13.1% of respondents rate the national economy as excellent or very good, lower than in 2025 (20.4%). 43.6% rate the national economy as poor or very poor, lightly higher than in 2025 (40.2%).
- 13.2% of respondents felt that the national economy was getting better, lower than last year (21%). 63.5% said the national economy was getting worse, higher than last year (54.4%).
- 57.5% of respondents were very concerned or moderately concerned that the national economy would seriously threaten their own or their family's welfare, slightly down from 59.3% in 2025.
- 25.6% of respondents felt the nation was on the right track, down from 34% in 2025, and 65.3% felt the nation was on the wrong track, up from 56.7% in 2025.

Section 3: Government, Politicians & Election

- 46.9% of respondents were satisfied with the performance of Governor Laura Kelly, and 29.1% were dissatisfied.
- 32.9% of respondents were satisfied with President Trump, and 54% were dissatisfied.
- 31.7% of respondents were satisfied with the Kansas Supreme Court, and 25.2% were dissatisfied.
- 27.4% of respondents were satisfied with the Kansas legislature, and 34.6% were dissatisfied.
- 19.6% of respondents were satisfied with the U.S. Congress, and 53.7% were dissatisfied.
- 28.2% of respondents were satisfied with U.S. Senator Jerry Moran, and 32% were dissatisfied.
- 26.1% of respondents were satisfied with U.S. Senator Roger Marshall, and 46.9% were dissatisfied.
- 32.8% of respondents were satisfied with the Democratic Party in Kansas, and 40.3% were dissatisfied.
- 32.1% of respondents were satisfied with the Republican Party in Kansas, and 45.6% were dissatisfied.
- 30.4% of respondents were satisfied with the national Democratic Party, and 48.2% were dissatisfied.
- 29% of respondents were satisfied with the national Republican Party, and 49.7% were dissatisfied.
- 41.1% of respondents voted for Laura Kelly for governor in the 2022 election, and 28.4% did not vote for her.
- 42.8% of respondents voted for Donald Trump in the 2024 presidential election, and 33.5% voted for Kamala Harris.
- 54.6% of respondents agreed that Kansas government becomes stronger with diverse representation among elected officials. 11.7% disagreed.

Section 4: Sin Taxes

- 55.5% of respondents supported increasing taxes on cigarettes and cigars to allow state taxation (23.3% opposed). 54.6% supported increasing taxes on alcohol (20.2% opposed).
- 60.9% of respondents supported legalizing recreational marijuana for individuals 21 and older to allow state taxation; 20.9% opposed.

Section 5: Medicaid Expansion

- In terms of amount of thought given to the issue, 37.2% of respondents thought a great deal or a lot of Medicaid expansion as a current political issue with the Kansas legislature.
- 65.1% of respondents agreed that expanding Medicaid would help rural Kansas hospitals remain in business. 7.9% disagreed.
- 65.5% of respondents agreed that the Kansans who might obtain health insurance from expanding Medicaid deserve this benefit from the state. 9% disagreed.
- 67.9% of respondents supported expanding Medicaid in Kansas. 10.9% disagreed.

- As they decide who got their vote to represent them in the Kansas Legislature, 53.4% of respondents felt the issue of Medicaid expansion in Kansas is highly or extremely important, 32.1% slightly important, and 7.9% not important at all.

Section 6: Family and Medical Leave

- 68.9% of respondents support Kansas providing paid, job-related family and medical leave for all employees. 11.4% opposed it.

Section 7: Marijuana Legalization

- 59.3% of respondents were highly or somewhat likely to vote for a candidate who supported medical marijuana legalization as they decided who to vote to represent them in the Kansas Legislature; 17.2% were unlikely.
- 65% of respondents strongly or somewhat support legalization of medical marijuana in general; 15.3% opposed.
- 58.3% of respondents strongly or somewhat support legalization of recreational marijuana in general; 21.3% opposed.

Section 8: Abortion and Crisis Pregnancy Centers

- 63.9% of respondents agreed that women are in a better position than politicians to make their own choices about whether to get an abortion; 15.4% disagreed.
- 54% of respondents agreed that the Kansas government should not place any regulations on the circumstances under which women can get abortions, while 26.9% disagreed.
- 49.8% of respondents disagreed that if the Kansas government were to ban all or most abortions, it should also make it illegal for Kansas women to travel outside of the state to get abortions in other states where abortion is still legal. 27.4% agreed.
- 44.7% of respondents somewhat or strongly opposed new laws that restrict access to abortion passed by the Kansas Legislature. 33.3% supported new laws.
- 59.7% of respondents were very or somewhat familiar with crisis pregnancy centers, 23.7% were not very familiar, and 16.6% were not at all familiar.
- 54.2% of respondents strongly or somewhat favored using state tax dollars to fund crisis pregnancy centers. 19.1% strongly or somewhat opposed.

Section 9: Immigration

- Slightly more than 60% of respondents somewhat or strongly agreed that legal immigrants contributed to: the economic vitality of their community (62.5%), the economic growth of the U.S. (61.8%), the economic vitality of Kansas (61.4%). About 15% disagreed with these statements.
- 60.6% of respondents somewhat or strongly agreed that legal immigrants contributed to government revenue by paying taxes. 16.8% disagreed.
- More than half of respondents somewhat or strongly agreed that legal immigrants enrich American culture and values (56.6%); and they take jobs that Americans don't want (53.9%). Less than 21% disagreed with these statements.
- 48.1% of respondents somewhat or strongly agreed that the U.S. should accept more high-skilled immigrants. 15.8% disagreed.

- 39.5% of respondents somewhat or strongly agreed that there were too many immigrants coming into the U.S. 33.3% disagreed.
- Forty percent or more of respondents somewhat or strongly disagreed that legal immigrants took social services (40.2%) and jobs (44.9%) away from American citizens. 25% or less disagreed.
- Close to the same percentage agreed (28.4%) as disagreed (27.3%) with accepting more low-skilled immigrants.
- 42.8% of respondents somewhat or strongly agreed that illegal immigrants were a danger to public safety. 32.5% disagreed.
- 39.6% of respondents somewhat or strongly agreed that illegal immigrants should be left alone by authorities if they don't break other laws. 38% disagreed.
- 36.8% of respondents somewhat or strongly agreed that illegal immigrants should be arrested and put in detention camps while awaiting deportation hearings. 43.3% disagreed.
- 34.8% of respondents somewhat or strongly agreed that illegal immigrants contributed more to society than they take in terms of resources. 40.3% disagreed.
- Regarding concern about immigrants of various possible dispositions, 50% or more of respondents were very or somewhat concerned with: an immigrant with a violent criminal conviction (77.3%); an immigrant who makes false statements or provides false information during application process (64.6%); an immigrant who crossed the U.S. border without authorization (62.3%); and a person with immigration-related, nonviolent criminal convictions (50.3%).
- Between 30% and 50% of respondents were very or somewhat concerned with: have a non-immigration related, nonviolent criminal conviction (49.2%); enter the U.S. legally but remain after their visa expires (45.2%); brought to the U.S. illegally as children by their parents (41%); undocumented who have lived in the U.S. for many years (39.5%); and are admitted to the U.S. as refugees (34.5%).
- Immigrant dispositions where the combined percentages of "not very concerned" and "not at all concerned" exceeds combined percentages of very and somewhat concerned included: high-skilled workers on employment visas (47.5% vs. 22.6%); low-skilled temporary or seasonal workers (40.2% vs. 27.8%), immigrants who are family-sponsored and joining relatives already in the U.S. (41.3% vs. 30.5%), and asylum seekers awaiting a decision on their claim (34.3% vs. 30.8%).

Section 10: Education

- 74.9% of respondents agreed or strongly agreed that they felt comfortable supporting K-12 public schools with their tax dollars; 10.4% disagreed. 70% of respondents agreed that they felt comfortable supporting technical/vocational schools; less than 10% disagreed. Similar level of support was given to community colleges. Lower levels of support were given to the six Kansas state-governed universities (56% agreed vs. 17.3% disagreed) and Washburn University (46.2% agreed vs. 18.3% disagreed).
- Asked to choose which is more important, over half (53.8%) indicated that funding education is more important, compared to 36.7% who indicated cutting taxes to be more important, and 9.5 responded don't know.

- More than half of respondents agreed or strongly agreed that education beyond high school is a good return on investment both for the student (55.2%) and for the general population of Kansas (55.8%), while less than 16% disagreed with both.
- 37.7% of respondents supported universities directly compensating student athletes for participating in intercollegiate athletics; 29.6% opposed.
- 30.4% of respondents supported using state tax revenues to fund university athletic programs; 37.9% opposed.
- 49% of respondents felt creating an educated citizenry is much or slightly more important as the main goal of higher education; 38% felt developing a workforce is much or slightly more important as the main goal.

Section 11: Causes of Homeless

- When asked about the most root cause of homelessness, 33.4% of respondents attributed it to lack of affordable housing, 27.2% to mental health issues, 22.2% to addictions, and about 10% to personal responsibilities.

Section 12: Gun Ownership

- When asked to select one single most important reason for owning a gun or rifle, protection was selected the most (46.3%), followed by Second Amendment (20.6%) and hunting (17.8%).
- 55.7% of respondents strongly or somewhat disagreed that adults should be allowed to carry concealed handguns without a license or permit; 28.8% agreed.
- 55.3% strongly or somewhat disagreed that adults should be allowed to carry handguns openly without a license or permit; 27.6% agreed.
- 60.8% of respondents strongly or somewhat disagreed that adults should be allowed to carry concealed handguns on college campuses; 20% agreed.
- Two thirds or more of respondents favored the following policies around gun ownership, while less than 15% opposed them:
 - Preventing sales of all firearms to people who have been reported as dangerous to law enforcement by a mental health provider (75.4% favored)
 - Preventing sales of all firearms to people who have been convicted of violent misdemeanors (75% favored)
 - Requiring a person to be 21 or older to purchase a gun (72.9% favored)
 - Making private gun sales and sales at gun shows subject to background checks (69.2% favored)
 - Allowing family members to ask the court to temporarily remove guns from a relative who they believe is at risk of harming themselves or others (67.8% favored)
 - Laws requiring the safe storage of firearms in homes and other private residences (67.3% favored)
- More than half of respondents favored the following policies around gun ownership, and opposition ranged from about 13% to 23%:
 - Mandatory three-day waiting period after a gun is purchased before it can be taken home (65.5% favored vs. 13.3% opposed)

- Authorizing law enforcement officers to temporarily remove guns from individuals who the officer determines pose an immediate threat of harm to self or others (64.1% favored vs. 13.2% opposed)
- Banning high-capacity ammunition clips that hold more than 10 bullets (55.8% favored vs. 19.2% opposed)
- Banning assault-style weapons (55.3% favored vs. 23.3% opposed)
- Less than half of respondents favored having teachers or other school officials with appropriate training carry guns at school (45.9% favored vs. 30.5% opposed).
- 48% of respondents felt that government and society could take action that will be effective in preventing mass shootings from happening again. 42.1% felt that mass shootings will happen again regardless of what action is taken by government and society.
- 42.4% of respondents indicated they or someone else in their household owned a gun. 57.6% said no one in their household owned a gun.

Section 13: Data Centers

- When asked whether there has been a proposal to locate a new data center in their community, 36% of respondents responded yes, 37.7% responded no, and 26.3% responded they did not know.
- Among a series of commonly discussed issues regarding data centers, more than half of respondents were extremely or definitely concerned about energy usage (60.9%), water usage (55.3%), the A.I. made possible by data centers (52.7%), and new nuclear reactors to power data centers (51.2%).
- More than forty percent were extremely or definitely concerned about data centers being targeted by terrorists or foreign governments (47.9%), heat generated (47.5%), land usage (47.1%), and noise (45.9%).
- 33.7% of respondents were extremely or definitely concerned about new solar installations to power the data centers; 38.3% were a little or not at all concerned.
- 40.4% of respondents thought new data centers would have somewhat or very negative impact on the economy in the communities where data centers are located; 30.6% anticipated positive impacts; 22.6% anticipated neither positive nor negative impacts; 6.4% answered don't know.

Section 14: Petition Initiative

- Two versions of the question were fielded in the survey about people's opinion on Kansas adopting the "petition initiative," a means for voters to put a law directly on the ballot without having to go through the Kansas Legislature, if enough verified signatures are collected. One provided context that all bordering states have the petition initiative; the other did not provide the context. Respondents randomly received one or the other version. When provided with the context, 58.4% of respondents supported adopting the petition initiative in Kansas, and 7.7% opposed it. When the context about neighboring states was not provided, the percentages were 51.3% (support) and 12.2% (oppose).

Section 15: Ranking of Various Public Affairs Issues

- When asked to rank 13 public affairs issues from the most important to the least, 85.7% of respondents ranked the Kansas economy in general as a top-five issue, and 45% placed it as the number one issue, making it the top ranked issue.
- Over 80% of respondents ranked three cost issues as top five issues: cost of groceries (89.5%), cost of housing (86.7%), and cost of energy, including gasoline and diesel (82%).
- 43.9% of respondents ranked abortion rights as a top five issue.
- 21.8% ranked access to firearms as a top-five issue.
- Less than 20% of respondents ranked the rest of the seven issues among their top five issues.

Introduction and Methods

To assess attitudes and opinions of Kansans about public affairs matters, the Docking Institute of Public Affairs (Institute) has surveyed representative samples of Kansas residents age 18 and older every year since 2009. In 2020, the Institute switched from using random digit dial telephone surveying to an online survey panel. For the 2026 survey, the Institute developed the survey questionnaire (Appendix B) and contracted with QualtricsXM for data collection, as it has annually since 2020. QualtricsXM and its panel provider partners build and maintain survey panels on an ongoing basis that mirror the demographic characteristics of populations. Moreover, when conducting a statewide survey of Kansans, the Institute has QualtricsXM pursue quotas by gender, age, and non-metro/metro counties in order to further promote a representative set of Kansas adults. QualtricsXM distributed the online questionnaire to the panel from September 23 to October 16, and 603 respondents answered all or nearly all of the survey questions.

Appendix A provides comparison of the Kansas population and the final survey panel respondents on multiple demographic characteristics, including the three quotas used during data collection (gender, age, and county population). Percentages on these three characteristics in the panel of respondents are mostly within 5% of the Kansas population, except for males and for Johnson County residents, both with slightly greater underrepresentation in the panel. Overrepresentation and underrepresentation are also detected within categories of some other demographic variables (see the “Survey Panel Unweighted” column and the “Kansas Population” column in Appendix A). For example, in the survey, 2.8% of respondents reported that their highest education level was “less than high school,” whereas the 2024 American Community Survey¹ conducted by the U.S. Census Bureau shows that 8.3% of Kansans had less than high school education. To increase the statistical presence of those who are underrepresented and decrease the presence of those who are overrepresented, the Institute weighted cases by age, gender, education, and party registration status (those who are not registered voters were retained in the final weighted data set). The weighted demographic statistics are presented under the “Survey Panel Weighted” column in Appendix A. The analyses throughout this report use the weighted data. To account for correlations among those variables used in weighting, weights to certain categories were iteratively adjusted so that the panel achieves a close approximation of the population in terms of age, gender, education and party registration status. Overall, more cases were weighted down than up, bringing the total count of cases in the panel to 585 after weighting.²

¹ At the time of data analysis, the 2024 American Community Survey (ACS) was the most recent data available on the U.S. Census website.

² Cases that are underrepresented on a variable receive a weight of more than one and therefore are counted as more than one case in the weighted data. Those that are overrepresented receive a weight of less than one and therefore are counted as less than one case. The total number of cases used for analyses after weighting can be greater or less than the number of cases in the original unweighted dataset.

The following analysis contains nine sections:

- 1) **Overall Quality of Life in Kansas.** This section shows how Kansans generally feel about Kansas as a place to live.
- 2) **Economy.** This section shows results on questions addressing various economic concerns to Kansans.
- 3) **Government, Politicians, and Election.** This section presents the results of ratings of the state government, elected officials and the U.S. and Kansas Supreme Courts, and voting choices in previous elections.
- 4) **Sin Taxes.** This section presents opinions on increasing taxes on cigarettes and cigars and alcohol; and legalizing recreational marijuana for state taxation.
- 5) **Medicaid Expansion.** This section examines the perceived impacts of Medicaid expansion and support of it.
- 6) **Family and Medical Leave.** This section presents the support level of adopting paid, job-related family and medical leave in Kansas.
- 7) **Marijuana Legalization.** This section looks at opinions on legalization of medical and recreational marijuana.
- 8) **Abortion and Crisis Pregnancy Centers.** This section examines opinions on abortion rights, laws and regulations restricting abortion, and using state tax dollars to fund crisis pregnancy centers.
- 9) **Immigration.** This section presents opinions on legal and illegal immigrants and concerns with various immigrant dispositions.
- 10) **Education.** This section examines support of educational institutions with tax dollars, perceived value and goals of postsecondary education, and attitude toward university athletics funding.
- 11) **Perceived Cause of Homelessness.** This section presents opinion about the root cause of homelessness.
- 12) **Gun Ownership.** This section examines gun ownership, opinion on open and concealed carry and gun-related policies, and perceived efficacy at preventing mass shooting.
- 13) **Data Center.** This section looks at concerns about data centers and perceived impacts on local economy from data centers.
- 14) **Petition Initiative.** This section presents attitudes about Kansas adopting petition initiative.
- 15) **Ranking of Various Public Affairs Issue.** This section presents the ranking of 13 public affairs issues based on their perceived importance.

These sections present descriptive analyses of respondents' answers to each question. Except for the questions asking about respondents' demographic information, survey questions are displayed verbatim under those graphs presenting descriptive analyses. See Appendix B for all survey content as presented to respondents in the questionnaire.

Appendix C contains cross-tabulation analyses of survey questions by demographic variables. The tables are in the same order as the questions in the questionnaire. Each table shows how respondents' answers to each question varied by age group, education level, gender, race, political orientation, and household income. Each row contains the percentages of respondents selecting each answer option of the survey question within a demographic category. For example, the first table in Appendix C presents how respondent answered the question "In general, how would you rate Kansas as a place to live?" The first row in that table shows how respondents of 18-34 years old answered the question: 16.1% of respondents of 18-34 years old selected "excellent," 25.7% of respondents of that age group selected "very good," etc.

Section 1: Overall Quality of Life in Kansas

When asked to rate Kansas as a place to live in 2026, 48.9 % indicated Kansas is a very good or excellent place to live, while only 6.5% said Kansas is a poor or very poor place to live. The rating back in 2025 was more positive, and the rating in 2024 was only slightly more positive.

Figure 1: Rating of Kansas as a Place to Live

Question: Q8 *In general, how would you rate Kansas as a place to live?*

When asked where they will be in 5 years, 61.9% of respondents said they would be living in the same community that they live in now, 12% said they would be moving to another location in Kansas, 14.4% said they would relocate to a state other than Kansas, and 11.7% don't know (Figure 2). The percentage of respondents who intended to move out of Kansas has been fairly consistent over the past three years.

Figure 2: Residence in 5 Years

Question: Q9 *By your best guess, where will you be in 5 years? Are you likely to still be living in the same community you are in now, move to another location in Kansas, or relocate to a state other than Kansas?*

Section 2: Economy

Rating of the Kansas economy in 2026 was lower than in 2025, returning to levels more similar to 2024. Figure 3 shows that 20.4% of respondents said they felt the state's economy is very good or excellent, lower than in 2025 (27.7%) and close to 2024 (21.1%). 2026 had the highest levels of combined poor or very poor rating at 17.5%, compared to 12.8% in 2025 and 14.5% in 2024.

Figure 4 shows that in 2026 only 11.2% of respondents felt that the Kansas economy is getting better over the past year, lower than 2025 (16.9%) and slightly lower than in 2024 (13.3%). The percentage of respondents feeling the Kansas economy is getting worse is notably higher in 2026 (48.6%) than in 2025 (36.1%) and in 2024 (37.6%). Only a little over one-third (34.5%) felt the Kansas economy stayed the same in 2026, lower than in 2025 (43.5%) and in 2024 (42.9%).

In 2026, 49.4% of respondents were very concerned or moderately concerned that the Kansas economy would seriously threaten their own or their family's welfare (Figure 5), higher than 2025 (46.5%) and 2024 (42.5%). The 18.8% of respondents who said they were not concerned at all in 2026, is very similar to the percentages in 2025 (19.4%) and 2024 (19.5%).

Figure 3: Rating of Kansas Economy

Question: Q10 *In general, how would you rate the Kansas economy?*

Figure 4: Opinion on Change of Kansas Economy

Question: Q11 Over the last 12 months, how would you say the Kansas economy has changed?

Figure 5: Level of Concern that the Kansas Economy Will Seriously Threaten Individual's or Family's Welfare Over the Next Year

Question: Q11 How concerned are you that the Kansas economy will seriously threaten you or your family's welfare in the coming year?

In 2026, 36.5% of respondents indicated they felt Kansas was on the right track, noticeably lower than in 2025 (44.9%) and somewhat lower than 2024 (40.8%). More than four of 10 (41.1%) believed Kansas was on the wrong track in 2026, the highest of the three years (Figure 6).

Figure 6: Opinion on Whether Kansas is on the Right or Wrong Track

Question: Q13 Generally speaking, do you think Kansas is on the right track or wrong track?

Introduced in the 2025 survey to follow the Kansas set of questions above, the Kansas Speaks survey gauged Kansan's perceptions of the national economy and whether the nation is more on the right or wrong track. In 2026 only 13.1% rated the national economy as excellent or very good (see Figure 7), compared to a somewhat higher 20.4% who felt this way about the Kansas economy in 2026. A combined 43.6% rated the national economy as poor or very poor in 2026, compared to only 17.5% who felt this way about the Kansas economy.

Figure 7: Rating of National Economy

Question: Q14 How would you rate the national economy?

Figure 8 shows that regarding the national economy, in 2026 only 13.2% say it is getting better, very similar to the 11.2% who said so about the Kansas economy. However, close to two-thirds (63.5%) said the national economy is getting worse, compared to close to half (48.6%) who said so about the Kansas economy.

Figure 8: Opinion on Change of National Economy

Question: Q15 *Over the last 12 months, how would you say the national economy has changed?*

In 2026, 57.5% of respondents were very concerned or moderately concerned that the national economy would seriously threaten their own or their family's welfare over the next year, compared to less than half (49.4%) who said so about the Kansas economy.

Figure 9: Level of Concern that the National Economy Will Seriously Threaten Individual's or Family's Welfare Over the Next Year

Question: Q16 *How concerned are you that the national economy will seriously threaten you or your family's well-being over the next year?*

In 2026 only about one-fourth (25.6%) thought the nation is on the right track, compared to 36.5% who thought so about the Kansas economy. Almost two-thirds (65.3%) said the nation is on the wrong track, compared to 41.1% who said so about Kansas.

Figure 10: Opinion on Whether Nation is on the Right or Wrong Track

Question: Q17 *Generally speaking, do you feel the nation is on the right track or wrong track?*

In 2026 the Kansas Speaks survey added a question asking respondents to think about their cost of living now compared to 12 months ago and indicate the extent to which it has changed. Figure 11 shows that a combined 69.5% indicated their household's cost of living was somewhat higher (37%) or much higher (32.5%) than 12 months ago.

Figure 11: Household's Overall Cost of Living Compared to 12 Months Ago

Question: Q18 *Compared with 12 months ago, how would you describe your household's overall cost of living?*

Section 3: Government, Politicians, and Elections

Respondents were asked about their satisfaction with certain elected individuals, elected bodies, and courts (Figure 12). Among all in the list, satisfaction was highest for Governor Laura Kelly, as 46.9% of respondents were satisfied with Governor Kelly and 29.1% were dissatisfied. Fewer were satisfied (32.9%) with President Donald Trump than dissatisfied (54%). A little more than a quarter (27.4%) were satisfied with the Kansas Legislature, while a little more than a third (34.6%) were dissatisfied. The U.S. Congress received the lowest level of satisfaction and the highest level of dissatisfaction among all in the list, with only 19.6% satisfied and 53.7% dissatisfied. More than a quarter were satisfied (28.2%) with U.S. Senator Jerry Moran, and slightly less than a third (32%) were dissatisfied. Satisfaction with U.S. Senator Roger Marshall was at 26.1%, and 46.9% were dissatisfied. More were satisfied (31.7%) with the Kansas Supreme Court than dissatisfied (25.2%). Fewer were satisfied (28.1%) with the U.S. Supreme Court than dissatisfied (39.9%).

Figure 12: Satisfaction with the Overall Performance of Elected/Appointed Officials

Question: Q19 How satisfied are you with the overall performance of the United States Congress? United States Supreme Court? President Donald Trump? Kansas Supreme Court? Governor Laura Kelly? Senator Jerry Moran? Senator Roger Marshall? Kansas Legislature?

A new question to the 2026 survey asked respondents to report their levels of satisfaction with the two major parties (Republican and Democrat) in Kansas and at the national level. Figure 13 shows overall levels of satisfaction across this statewide sample of respondents. Among the collection of all respondents, satisfaction with the Republican Party in Kansas (32.1%) and the Democratic Party in Kansas (32.8%) was the same. There was slightly higher dissatisfaction with the Kansas Republican Party (45.6%) than with the Kansas Democratic Party (40.3%). Regarding the respective national parties, there was less satisfaction than dissatisfaction, and the levels of each are similar by party. Right at 29% were satisfied with the national Republican Party and 30.4% were satisfied with the national Democratic Party, while 49.7% were dissatisfied with the national Republican Party and 48.2% were dissatisfied with the national Democratic Party.

Figure 13 Satisfaction with the Two Major Parties at the State and National Levels

Question: Q20. *Please indicate your satisfaction with each of the following political parties*

When asked whether they voted for Laura Kelly for governor in the 2022 election, 41.1% of respondents said yes, and 28.4% said no. Over a quarter of respondents (28%) did not vote, and 2.4% answered don't know or prefer to not answer (Figure 14).

Figure 14: Voted for Laura Kelly in the 2022 Governor Election

Question: Q21 *If you voted in the 2022 election for governor, did you vote for Laura Kelly?*

When asked who they voted for in the 2024 presidential election, 42.8% of respondents said they voted for Donald Trump, and 34.5% said they voted for Kamala Harris. Less than twenty percent (18.4%) said they did not vote in the 2024 presidential election (Figure 13).

Figure 15: Vote in the 2024 Presidential Election

Question: Q22 *If you voted in the 2024 presidential election, who did you vote for?*

When asked if Kansas government is stronger when it has diverse representation among its elected officials, 54.6% of respondents agreed or strongly agreed that Kansas government becomes stronger with diverse representations among elected officials, while 11.7% disagreed or strongly disagreed (Figure 16).

Figure 16: Stronger Government with Diverse Representation Among Elected Officials

Question: Q24 How much do you agree or disagree that Kansas government is stronger when it has diverse representation among its elected officials?

Section 4: Sin Taxes

Respondents were asked about increasing taxes on cigarettes and cigars, alcohol, and legalizing recreational marijuana to allow state taxation, as avenues for increasing State revenue. Over half (55.5%) somewhat or strongly supported increasing taxes on cigarettes and cigars. A similar percentage (54.6%) supported increasing taxes on alcohol. About 6 of 10 (60.9%) supported legalizing recreational marijuana for individuals 21 and older to allow state taxation, while 20.9% opposed (Figure 17).

Figure 17: Taxes on Cigarettes and Cigars, Alcohol, and Marijuana

Question: Q28 There are other ways to increase the State of Kansas' revenue that would not include raising traditional taxes. Please tell me if you "Strongly Support", "Somewhat Support", "Neutral", "Somewhat Oppose", or "Strongly Oppose" the following alternative revenue sources: Increasing taxes on cigarettes and cigars, increasing taxes on alcohol, legalizing recreational marijuana for individuals 21 and older to allow taxation by the State of Kansas.

Section 5: Medicaid Expansion

When asked how much they think about Medicaid expansion, 37.2% of respondents think a great deal or a lot and another 29.1% think a moderate amount about Medicaid expansion as a current political issue with the Kansas legislature. About one third (33.7%) of respondents think a little or not at all of this issue (Figure 19).

Figure 18: Thinking about Medicaid Expansion in Kansas

Question: Q25 *Medicaid expansion is a current political issue with the Kansas Legislature. How much do you think about this issue?*

Turning to opinions on expansion (Figure 20), 65.1% of respondents strongly or somewhat agreed that expanding Medicaid would help rural Kansas hospitals remain in business, while only 7.9% disagree. About two-thirds (65.5%) strongly or somewhat agreed that the Kansans who might obtain health insurance from expanding Medicaid deserve this benefit from the state, while only 9.0% disagree. Slightly over two-thirds (67.9%) of respondents supported expanding Medicaid in Kansas, while only 10.9% do not.

Figure 19: Opinions on Medicaid Expansion in Kansas

Question: Q26 *If Kansas expands Medicaid under the Affordable Care Act, about 10% of the expansion would be paid by Kansas, and 90% by the federal government. Please tell me if you strongly agree, somewhat agree, are neutral, somewhat disagree or strongly disagree with the following statements.*

Well over half (53.4%) of respondents felt the issue of Medicaid expansion in Kansas was highly or extremely important as they decided who gets their vote to represent them in the Kansas Legislature, and another 32.1% considered it slightly important (Figure 21).

Figure 20: Importance of Medicaid Expansion When Voting for the Kansas Legislature

Question: Q27 As you decide who gets your vote to represent you in the Kansas Legislature, how important is the issue of Medicaid expansion in Kansas?

Section 6: Family and Medical Leave

A new question in 2026 asks the extent to which respondents support Kansas providing paid leave for employees. Figure 22 shows that over two-thirds (68.9%) were somewhat or strongly supportive of providing paid leave. Only 11.4% opposed it.

Figure 21: Support for Paid Family and Medical Leave for All Employees in Kansas

Question: Q42 Currently for most employees in Kansas, the primary state-wide family and medical leave protection is the federal Family and Medical Leave Act (FMLA), which provides eligible employees with up to 12 weeks of UNPAID, job-protected leave for certain family and medical reasons. Do you support or oppose Kansas providing PAID, job-related family and medical leave protection for all employees in Kansas?

Section 7: Marijuana Legalization

Sixty percent (59.3%) of respondents were highly or somewhat likely to vote for a candidate who supports medical marijuana legalization as they decided who gets their vote to represent them in the Kansas Legislature, while 17.2% were unlikely (Figure 22).

Figure 22: Likelihood to Vote for A Candidate who Supports Medical Marijuana Legalization

Question: Q31 As you decide who gets your vote to represent you in the Kansas Legislature, how likely are you to vote for a candidate who supports medical marijuana legalization?

About two-thirds (65%) of respondents strongly or somewhat supported legalization of medical marijuana in general, while 15.3% opposed (Figure 23). Support for legalizing recreational marijuana was lower (58.3% support; 21.3% oppose) than for legalizing medical marijuana.

Figure 23: Opinion on Legalizing Medical Marijuana in General

Question: Q32 How much do you support or oppose legalization of medical marijuana in general?

Figure 24: Opinion on Legalizing Recreational Marijuana in General

Question: Q33 How much do you support or oppose legalization of recreational marijuana in general?

Section 8: Abortion and Crisis Pregnancy Centers

The survey measured respondents' attitudes on a list of statements related to abortion. Almost two-thirds (63.9%) of respondents agreed or strongly agreed that women were in a better position than politicians to make their own choices about whether to get an abortion, while 15.4% disagreed or strongly disagreed. Over half (54%) agreed or strongly agreed that Kansas government should not place any regulations on the circumstances under which women can get abortions, while 26.9% disagreed or strongly disagreed. About half (49.8%) of respondents disagreed or strongly disagreed that "if the Kansas government were to ban all or most abortions, it should also make it illegal for Kansas women to travel outside of the state to get abortions in other states where abortion is still legal," and about 27.4% agreed or strongly agreed (Figure 25).

Figure 25: Opinions regarding Abortion

Question: Q34 How strongly do you agree or disagree with these statements regarding abortion?

Respondents were asked about their opinion regarding new laws that restrict access to abortion passed by the Kansas Legislature even though Kansans voted to continue making abortion legal in Kansas in an August 2022 statewide referendum. Over 4 in 10 (44.7%) were strongly or somewhat opposed new laws that restrict access to abortion, while one-third (33.3%) of respondents were strongly or somewhat supportive of them (Figure 28).

Figure 26: Opinion on New Restrictions on Abortion

Question: Q35 In 2022, Kansas voters voted to continue making abortion legal in Kansas under most circumstances. However, the Kansas Legislature continues to pass new restrictions on the procedure. In general, how do you feel about new laws that restrict access to abortion?

Two new questions for the 2026 survey relate to crisis pregnancy centers. Respondents were first asked to indicate their level of familiarity with such centers, followed by a question about their favorability toward such centers. Figure 29 shows that about 60% were at least somewhat familiar, 23.7% were not very familiar, and 16.6% were not at all familiar with such centers.

Figure 27: Level of Familiarity with Crisis Pregnancy Centers

Question: Q36 *Crisis pregnancy centers are organizations that provide free pregnancy-related services such as pregnancy testing, parenting information, referrals for social services, and often encourage women to continue their pregnancies rather than seek abortion services. Before today, how familiar were you with crisis pregnancy centers?*

Most respondents (54.2%) at least somewhat favored using state tax dollars to fund these centers, while 19.1% were at least somewhat opposed (Figure 28).

Figure 28: Favorability Toward Using State Tax Dollars to Fund Crisis Pregnancy Centers

Question: Q37 *Do you favor or oppose Kansas using state tax dollars to fund crisis pregnancy centers?*

Section 9: Immigration

A set of statements about legal immigration was presented to respondents. As shown in Figure 29, about 62.5% respondents somewhat or strongly agreed that legal immigrants contributed to the economic vitality of “my community,” while 14.2% disagreed. Slightly more than 6 in 10 (61.8%) somewhat or strongly agreed that they contribute to the economic growth of the U.S. (16.4% disagreed), and 61.4% somewhat or strongly agreed that legal immigrants contribute to the economic vitality of Kansas (14.4% disagreed). About 60% agreed that they contribute to government revenue by paying taxes (16.8% disagreed). Most agreed that legal immigrants enrich American culture and values (56.6% agreed; 19.4% disagreed), and most agreed that they take jobs that Americans don’t want (53.9% agreed; 20.4% disagreed). Consistent with opinions about legal immigrants taking jobs Americans don’t want, 44.9% of respondents somewhat or strongly disagreed that legal immigrants took jobs away from American citizens, but 32.2% somewhat or strongly agreed. Almost forty percent (39.5%) of respondents agreed that there were too many immigrants coming into the U.S., however, a larger percentage (48.1%) believed the U.S. should accept more high-skilled immigrants. More disagreed (40.2%) that legal immigrants take social services away from American citizens than agreed (35%). Close to the same percentage agreed (28.4%) as disagreed (27.3%) with accepting more low-skilled immigrants.

Figure 29: Opinion about Legal Immigrants

Question: Q38 To what extent do you agree or disagree with the following statements about migrants who are legally in the U.S.?

Regarding immigrants who are in the U.S. illegally, the 39.6% who agreed that illegal immigrants should be left alone by authorities if they don't break other laws is very close to the 38% disagreed (Figure 30). A larger percentage disagreed (40.3%) than agreed (34.8%) that illegal immigrants contribute more to society than they take in terms of resources. More than forty percent (43.3%) of respondents disagreed that illegal immigrants should be arrested and put in detention camps while awaiting deportation hearings, whereas 36.8% agreed. Over forty percent (42.8%) agreed that illegal immigrants were a danger to public safety, while about one-third (32.5%) disagreed (Figure 30).

Figure 30: Opinion about Illegal Immigrants

Question: Q39 Now we have some statements about immigrants who are in the U.S. illegally (have no legal status to be in the country).

New in the 2026 Kansas Speaks survey, Figure 31 shows level of concern about people of various possible immigrant dispositions. The combined highest levels of “very concerned” and “somewhat concerned” (all at 50% or higher) in order were: have a violent criminal conviction (77.3%); make false statements or provide false information during application process (64.6%); cross the U.S. border without authorization (62.3%); and have immigration-related, nonviolent criminal convictions (50.3%). Other items on which there is a higher combined percentage of very and somewhat concerned than the combined percentage of “not very concerned” and “not at all concerned” included in order of highest to least concern: have a non-immigration related, nonviolent criminal conviction; enter the U.S. legally but remain after their visa expires; brought to the U.S. illegally as children by their parents; undocumented who have lived in the U.S. for many years; and are admitted to the U.S. as refugees. Finally, immigrant dispositions where the combined percentage of “not very concerned” and “not at all concerned” exceed combined percentages of very and somewhat concerned included in order of lowest levels of concern: high-skilled workers on employment visas; low-skilled temporary or seasonal workers, immigrants who are family-sponsored and joining relatives already in the U.S., and asylum seekers awaiting a decision on their claim.

Figure 31: Level of Concern about Various Immigrant Dispositions

Question: Q40 People come to the United States through a variety of legal and illegal pathways. For each of the following groups, please indicate how concerned you are about their presence in the United States.

Section 10: Education

Last asked about in the 2023 Kansas Speaks survey, in 2026 about three-fourths (74.9%) agreed or strongly agreed that they felt comfortable supporting K-12 public schools with their tax dollars (10.4% disagreed). Seven in ten respondents agreed regarding technical/vocational schools and regarding community colleges, and regarding both, less than 10% disagreed. More than half (56%) agreed or strongly agreed they felt comfortable supporting the six Kansas state-governed universities (17.3% disagreed), and 46.2% felt comfortable supporting Washburn University (18.3% did not) (Figure 32).

Figure 32: Supporting Educational Institutions with Tax Dollars

Question: Q29 *How much do you agree or disagree that you feel comfortable supporting the following institutions with your taxpayer dollars?*

New to the 2026 survey, respondents were asked which is more important, funding education or cutting taxes. Figure 33 shows that over half (53.8%) indicated that funding education is more important, compared to 36.7% who indicated cutting taxes to be more important. Another 9.5% answered don't know.

Figure 33: More Important to Fund Education or to Cut Taxes

Question: Q30 *Which is more important, funding education or cutting tax?*

When asked if education beyond high school offers a good return on investment for the student and, separately, for the general population of Kansas, response was very similar to both questions. For both the student and for the general population of Kansas, about 55% agreed or strongly agreed that education beyond high school is a good return on investment, while less than 20% disagreed with either statement (Figure 34).

Figure 34: Education beyond High School as a Return on Investment

Question: Q50 How much do you agree or disagree that education beyond high school offers a good return on investment for the student and for the general population of Kansas?

New in 2026, the survey gauged support for universities directly compensating student athletes for participating in intercollegiate athletics and support for using state tax revenue to fund university athletic programs. Figure 35 shows more support (37.7%) than opposition (29.6%) for directly compensating student athletes but more opposition (37.9%) than support (30.4%) for using state tax revenues to fund university athletic programs.

Figure 35: Support for Universities Paying Student Athletes and for Using State Tax Revenues

Question: Q51 How much do you support universities directly compensating student athletes for participating in intercollegiate athletics?

Q52 How much do you support using state tax revenues to fund university athletic programs?

Regarding the goal of higher education, 49% of respondents felt creating an educated citizenry for democratic functioning is much or slightly more important, and 38% felt developing a workforce is much or slightly more important. Over ten percent (13%) answered don't know (Figure 36).

Figure 36: Goal of Higher Education

Question: Q53 *Some people say the main goal of higher education is an educated citizenry for democratic functioning and others say it is to develop a workforce. Please select the statement you agree with most.*

Section 11: Causes of Homelessness

A third (33.4%) of respondents thought lack of affordable housing is the most root cause of homelessness, 27.2% thought mental health issues, and 22.2% thought addictions. About 10% attributed it to personal responsibility (Figure 37), similar to response in past years.

Figure 37: Most Root Cause of Homelessness

Question: Q41 *Of these, which do you believe is the most root cause of homelessness?*

Section 12: Gun Ownership

The survey asked respondents to think about the single most important reason for owning a gun or rifle. Approaching half (46.3%) of the respondents chose “protection as the single most important reason. “Second Amendment” was the second most selected answer, with 20.6% of respondents selecting it. “Hunting” ranked the third place, with 17.8% of respondents selecting it (Figure 38), very similar to the response observed in the 2024 Kansas Speaks survey, the last time the question was asked.

Figure 38: Single Most Important Reason for Owning a Gun or Rifle

Questions: Q43 *What is the single most important reason for owning a gun or rifle?*

A majority (55.7%) of respondents disagreed that adults should be allowed to carry handguns concealed without a license or a permit (41.2% of those strongly disagreed), while over a quarter (28.8%) of respondents agreed that adults should be allowed to do so. Similarly, a majority (55.3%) disagreed that adults should be allowed to carry handguns openly without a license or a permit (43.3% of those strongly disagreed), while 27.6% agreed that adults should be allowed to do so. When it comes to carrying on college campuses, about 6 out of 10 (60.8%) disagreed that adults should be allowed to carry concealed handguns on college campuses (46.1% of those strongly disagreed), compared to 20% who agreed that adults should be allowed to carry concealed on college campuses (Figure 39).

Figure 39: Carry Handguns

Question: Q44 *To what extent do you agree or disagree with the following statements?*

The survey listed 11 policies around gun ownership (Figure 40) and asked if respondents favor or oppose them. Two thirds or more favored or strongly favored the following six policies, while less than 15% opposed them:

- Preventing sales of all firearms to people who have been reported as dangerous to law enforcement by a mental health provider (75.4% favored).
- Preventing sales of all firearms to people who have been convicted of violent misdemeanors (75% favored).
- Requiring a person to be 21 or older to purchase a gun (72.9% favored).
- Making private gun sales and sales at gun shows subject to background checks (69.2% favored).
- Allowing family members to ask the court to temporarily remove guns from a relative who they believe is at risk of harming themselves or others (67.8% favored).
- Laws requiring the safe storage of firearms in homes and other private residences (67.3% favored).

Over half favored or strongly favored these four policies, and opposition ranged from about 13% to 23%:

- Mandatory three-day waiting period after a gun is purchased before it can be taken home (65.5% favored vs. 13.3% opposed).
- Authorizing law enforcement officers to temporarily remove guns from individuals who the officer determines pose an immediate threat of harm to self or others (64.1% favored vs. 13.2% opposed).
- Banning high-capacity ammunition clips that hold more than 10 bullets (55.8% favored vs. 19.2% opposed).
- Banning assault-style weapons (55.3% favored vs. 23.3% opposed)

On the remaining question in this list, a combined less than half (45.9%) favored having teachers or other school officials with appropriate training carry guns at school, and a combined 30.5% opposed this.

Figure 40: Opinion on Policies Around Gun Ownership

Question: Q45 How much do you favor or oppose the following policies around gun ownership?

Respondents were given two statements and asked which statements came closer to their overall view with regard to preventing mass shooting. Close to half (48%) selected “government and society can take action that will be effective in preventing mass shootings from happening again.” About 42% selected “mass shootings will happen again regardless of what action is taken by government and society,” and 9.9% said they had no opinion (Figure 41).

Figure 41: View about Preventing Mass Shooting

Question: Q46 Which of the following statements come closer to your overall view with regard to preventing mass shooting?

Regarding gun ownership, 42.4% of respondents said they or someone else in their household owned a gun. A majority (57.6%) said no one in their household owned a gun (Figure 42).

Figure 42: Gun Ownership

Question: Q47 Do you or does anyone else in your household own any guns (not including air guns, such as paintball BB, or pellet guns)?

Section 13: Data Centers

New to the 2026 Kansas Speaks survey are questions about data centers. Asked whether there has been a proposal to locate a new data center in their community, the percentage who responded yes (36%) is only slightly lower than the percentage who responded no (37.7%). Over a quarter (26.3%) don't know whether a data center has been proposed for their community (Figure 43).

Figure 43: A New Data Center Has Been Proposed for My Community

Question: Q54 *One recent topic of debate is data centers. As far as you are aware, has there been a proposal to locate a new data center in your community?*

Respondents were asked to rate their level of concern about a series of commonly discussed issues regarding data centers. Figure 44 shows that over 60% were extremely (36.9%) or definitely (24%) concerned about data center energy usage (only about 6.4% were not concerned at all). Over half of respondents were extremely or definitely concerned about water usage (55.3%), the A.I. made possible by data centers (52.7%), and new nuclear reactors to power data centers (51.2%), with less than 15% on each of these issues who indicated no concern at all. More than four of ten were extremely or definitely concerned about data centers as targets for terrorists or foreign governments (47.9%), heat generated (47.5%), land usage (47.1%), and noise (45.9%), and the percentages who were not at all concerned about these issues ranges from 11.8% to 18.1%. By a substantial margin, concern about new solar installations to power data centers is lower than all other issues in the list at 33.7% extremely or definitely concerned and 26.2% not concerned at all.

Figure 44: Concerns About Data Centers

Question: Q55 How concerned are you about each of the following issues regarding new data centers?

A final question about data centers asked the respondent their perception about the impact on the local economy of a community from siting a data center there. A larger percentage anticipated negative impacts (40.4%) than anticipated positive impacts (30.6%). Close to a quarter (22.6%) anticipated neither positive nor negative impacts, and 6.4% answered don't know.

Figure 45: Perceived Impact of a New Data Center on a Community's Economy

Question: Q56 *Think about how new data centers will affect the economy in the communities where they are located. Do you think their impact on the local economy will be...?*

Section 14: Petition Initiative

New to the 2026 survey, respondents were presented with a short statement describing the “petition initiative,” a means for voters to put a law directly on the ballot without having to go through the Kansas Legislature, if enough verified signatures are collected. Then respondents were asked the extent which they agree or disagree with the idea of Kansas adopting the petition initiative. The Docking Institute experimented with a version of the question by adding context that all states bordering Kansas have the petition initiative. Respondents were randomly assigned the basic version of the question or the version with the context of bordering states having the petition initiative. Figure 46 shows that both versions of the question yield a majority support response. Using the basic version of the question, 51.3% supported and 12.2% opposed Kansas adopting petition initiative. When the context that all states bordering Kansas have the petition initiative is provided, a larger percentage, 58.4%, supported it and a smaller percentage, 7.7%, were opposed to adopting the petition initiative.

Figure 46: Attitudes About Kansas Adopting Petition Initiative

Question: Q48 *Currently, Kansas does not have the petition initiative, a means for voters to put a law directly on the ballot without having to go through the Kansas Legislature, if they collect enough verified signatures. How much do you agree or disagree with the idea that Kansas adopts the petition initiative?*

Q49 *Currently, Kansas does not have the petition initiative, a means for voters to put a law directly on the ballot without having to go through the Kansas Legislature, if they collect enough verified signatures. All states bordering Kansas (Missouri, Nebraska, Colorado, and Oklahoma) are among the states which do have the petition initiative. How much do you agree or disagree with the idea that Kansas adopts the petition initiative?*

Section 15: Ranking of Various Public Affairs Issues

At the end of topical content and prior to sociodemographic questions, the 2026 survey gave respondents the opportunity to rank 13 public affairs issues according to how they view them from the most important to the least important. Figure 47 shows results by reporting percentages on each issue who rank it as first, second, third, fourth, or fifth in importance. Cost issues out-distance all others except the related issue of the “Kansas economy in general.” Over 80% of respondents ranked three cost issues -- cost of groceries; cost of housing; and cost of energy, including gasoline and diesel -- as top-five issues. Over 80% ranked the Kansas economy in general as a top-five issue, and it is also by far the top ranked issue, with 45% placing it as the number one issue. After these four issues, abortion rights follows next in order of the percentage (43.9%) who rank it as a top-five issue in importance to them. A little more than twenty percent (21.8%) of respondents ranked access to firearms as a top-five issue. Less than 20% of respondents ranked the rest of the seven issues among their top five issues.

Figure 47: Ranking 13 Public Affairs Issues in Order of Personal Importance

Question: Q57 Please rank the following issues from the most important (at the top) to the least important (at the bottom). You may click and drag the issues until you have them in the order that fits your own preferences.

Appendix A: Demographic Characteristics

Social Indicators		Survey Panel Unweighted (n=603)	Survey Panel Weighted (n=585)	Kansas Population*
Age	18-24 Years Old	7.1%	12.0%	13.0%
	25-34 Years Old	22.9%	16.6%	16.9%
	35-44 Years Old	18.6%	16.6%	17.2%
	45-54 Years Old	15.4%	15.8%	14.4%
	55-64 Years Old	15.8%	15.6%	15.1%
	65 Years and Older	20.2%	23.4%	23.4%
Gender (18 & older)	Male	44.4%	48.4%	49.9%

*Kansas population data for Age, County Population, Education, Gender, Household Income and Race were obtained from the U.S. Census: 2024 American Community Survey, 1-year estimates. The percentage of registered voters in Kansas is estimated using election statistics from the Kansas Secretary of State Election Statistics website and Kansas population estimate from U.S. Census 2024 American Community Survey estimates. Party registration information was obtained from the Kansas Secretary of State Election Statistics website.

** The Survey Panel Percentages in this section are based on the total number of respondents who indicated that they were registered voter (n=484 unweighted; n=506 weighted)

Appendix B: Survey Instrument

Kansas Speaks 2026

Q1 Welcome to the 2026 Kansas Speaks survey conducted by the Docking Institute of Public Affairs at Fort Hays State University. Kansas Speaks is a statewide survey measuring Kansans' evaluations of elected officials and opinions on economy, taxation, election, and some current public affairs issues. It takes about 12 minutes to answer all the questions. The survey has been conducted annually since 2009, and survey results have been reported in local, state, and national news media. Your opinions matter. By participating in this survey, you will give voice to thousands of Kansans similar to you. You are assured complete confidentiality. For more information about the Kansas Speaks survey, please visit our website: www.fhsu.edu/docking/Kansas-Speaks Should you have concerns with the survey, please contact Dr. Jian Sun via his email address: jsun@fhsu.edu

Q2 Before you proceed to the survey, please complete the captcha below.

Q3 With that out of the way, let's get right into it!

☐ Yes (1)

☐ No (2)

Q4 Are you at least 18 years of age or older?

☐ Yes (1)

☐ No (2)

Q5 What year were you born?

Q6 What is your gender?

- ☐ Male (1)
- ☐ Female (2)
- ☐ Other identity (3)

Q7 In which Kansas county do you primarily reside?

▼ Allen (1) ... Wyandotte (105)

Q8 In general, how would you rate Kansas as a place to live?

- ☐ Excellent (1)
- ☐ Very Good (2)
- ☐ Good (3)
- ☐ Fair (4)
- ☐ Poor (5)
- ☐ Very Poor (6)
- ☐ DON'T KNOW (88)

Q9 By your best guess, where will you be in 5 years? Are you likely to...

- ☐ Still be living in the same community you are in now (1)
- ☐ Move to another location in Kansas (2)
- ☐ Relocate to a state other than Kansas (3)
- ☐ DON'T KNOW (88)

Q10 In general, how would you rate the Kansas economy? Would you say it is...

- ☐ Excellent (1)
- ☐ Very Good (2)
- ☐ Good (3)
- ☐ Fair (4)
- ☐ Poor (5)
- ☐ Very Poor (6)
- ☐ DON'T KNOW (88)

Q11 Over the last 12 months, how would you say the Kansas economy has changed? Would you say it is...

- ☐ Getting Worse (1)
- ☐ Staying the Same (2)
- ☐ Getting Better (3)
- ☐ DON'T KNOW (88)

Q12 How concerned are you that the Kansas economy will seriously threaten you or your family's well-being over the next year? Would you say...

- ☐ Very Concerned (1)
- ☐ Moderately Concerned (2)
- ☐ Slightly Concerned (3)
- ☐ Not Concerned at all (4)
- ☐ DON'T KNOW (88)

Q13 Generally speaking, do you feel Kansas is on the right track or wrong track?

- ☐ Right Track (1)
- ☐ Wrong Track (2)
- ☐ DON'T KNOW (88)

Q14 Next, we'd like to ask you about the economy of the U.S. In general, how would you rate the national economy? Would you say it is...

- ☐ Excellent (1)
- ☐ Very Good (2)
- ☐ Good (3)
- ☐ Fair (4)
- ☐ Poor (5)
- ☐ Very Poor (6)
- ☐ DON'T KNOW (88)

Q15 Over the last 12 months, how would you say the national economy has changed? Would you say it is...

- ☐ Getting Worse (1)
- ☐ Staying the Same (2)
- ☐ Getting Better (3)
- ☐ DON'T KNOW (88)

Q16 How concerned are you that the national economy will seriously threaten you or your family's well-being over the next year? Would you say...

- ☐ Very Concerned (1)
- ☐ Moderately Concerned (2)
- ☐ Slightly Concerned (3)
- ☐ Not Concerned at all (4)
- ☐ DON'T KNOW (88)

Q17 Generally speaking, do you feel the nation is on the right track or wrong track?

- ☐ Right Track (1)
- ☐ Wrong Track (2)
- ☐ DON'T KNOW (88)

Q18 Compared with 12 months ago, how would you describe your household's overall cost of living?

- ☐ Much lower (1)
- ☐ Somewhat lower (2)
- ☐ About the same (3)
- ☐ Somewhat higher (4)
- ☐ Much higher (5)
- ☐ DON'T KNOW (88)

Q19 Please indicate if you are "Very Satisfied," "Somewhat Satisfied," "Neutral," "Somewhat Dissatisfied," or "Very Dissatisfied" with the following public entities/officials.

	Very Satisfied (1)	Somewhat Satisfied (2)	Neutral (3)	Somewhat Dissatisfied (4)	Very Dissatisfied (5)	DON'T KNOW (88)
The Kansas Legislature in general (1)	☐	☐	☐	☐	☐	☐
U.S. Senator Jerry Moran (2)	☐	☐	☐	☐	☐	☐
U.S. Senator Roger Marshall (3)	☐	☐	☐	☐	☐	☐
Governor Laura Kelly (4)	☐	☐	☐	☐	☐	☐
President Donald Trump (5)	☐	☐	☐	☐	☐	☐
The Kansas Supreme Court (6)	☐	☐	☐	☐	☐	☐
The United States Supreme Court (7)	☐	☐	☐	☐	☐	☐
The United States Congress in general (8)	☐	☐	☐	☐	☐	☐

Q20 Please indicate your satisfaction with each of the following political parties:

	Very Satisfied (1)	Somewhat Satisfied (2)	Neutral (3)	Somewhat Dissatisfied (4)	Very Dissatisfied (5)	DON'T KNOW (88)
The Democratic Party in Kansas (1)	☐	☐	☐	☐	☐	☐
The Republican Party in Kansas (2)	☐	☐	☐	☐	☐	☐
The Democratic Party nationally (3)	☐	☐	☐	☐	☐	☐
The Republican Party nationally (4)	☐	☐	☐	☐	☐	☐

Q21 If you voted in the 2022 election for governor, did you vote for Laura Kelly?

- ☐ Yes (1)
- ☐ No (2)
- ☐ Did not vote in the 2022 governor election (3)
- ☐ Don't know or prefer not to answer (88)

Q22 If you voted in the 2024 presidential election, who did you vote for?

- ☐ Kamala Harris (1)
- ☐ Donald Trump (2)
- ☐ Neither Kamala Harris nor Donald Trump (3)
- ☐ Did not vote in the 2024 presidential election (4)
- ☐ Don't know or prefer not to answer (88)

Q23 Who do you plan to vote for as governor in 2026?³

- ☐ Cindy Holscher (Democrat) (1)
- ☐ Ty Masterson (Republican) (2)
- ☐ I do not plan on voting/cannot vote (3)
- ☐ Don't know or prefer not to answer (88)

³ The survey asked who respondents plan to vote for as governor in 2026. Our analysis shows that more than 9 out of 10 (92.3%) of registered voters indicated they planned to vote for a candidate, which is significantly higher than the historical voter turnout rates in Kansas gubernatorial elections (around 50% at best and usually in the mid-40s since 2002). The survey does not have a screening line of questioning that can be used to separate those registered voters who are likely to vote from those who are not likely to vote. Without this we are not able to estimate the voting choices among only likely voters, so are not reporting results for the question.

Q24 How much do you agree or disagree that Kansas government is stronger when it has diverse representation among its elected officials?

- ☐ Strongly agree (1)
- ☐ Agree (2)
- ☐ Neither agree nor disagree (3)
- ☐ Disagree (4)
- ☐ Strongly disagree (5)
- ☐ DON'T KNOW (88)

Q25 Medicaid expansion is a current political issue with the Kansas Legislature. How much do you think about this issue?

- ☐ A great deal (1)
- ☐ A lot (2)
- ☐ A moderate amount (3)
- ☐ A little (4)
- ☐ Not at all (5)

Q26 If Kansas expands Medicaid under the Affordable Care Act, about 10% of the expansion would be paid by Kansas, and 90% by the federal government. Do you "Strongly Agree," "Somewhat Agree," are "Neutral," "Somewhat Disagree," or "Strongly Disagree" with the following statements:

	Strongly Agree (1)	Somewhat Agree (2)	Neither Agree Nor Disagree (3)	Somewhat Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
Expanding Medicaid would help rural Kansas hospitals remain in business. (1)	☐	☐	☐	☐	☐	☐
The Kansans who might obtain health insurance from expanding Medicaid deserve this benefit from the State. (2)	☐	☐	☐	☐	☐	☐
I support expanding Medicaid in Kansas. (3)	☐	☐	☐	☐	☐	☐

Q27 As you decide who gets your vote to represent you in the Kansas Legislature, how important is the issue of Medicaid expansion in Kansas?

- ☐ Extremely Important (1)
- ☐ Highly Important (2)
- ☐ Slightly Important (3)
- ☐ Not Important at All (4)
- ☐ DON'T KNOW (88)

Q28 There are other ways to increase the State of Kansas' revenue that would not include raising traditional taxes. Please tell us if you "Strongly Support", "Somewhat Support", "Neutral", "Somewhat Oppose", or "Strongly Oppose" the following alternative revenue sources:

	Strongly Support (1)	Somewhat Support (2)	Neutral (3)	Somewhat Oppose (4)	Strongly Oppose (5)	DON'T KNOW (88)
Increasing taxes on cigarettes and cigars (1)	☐	☐	☐	☐	☐	☐
Increasing taxes on alcohol (2)	☐	☐	☐	☐	☐	☐
Legalizing recreational marijuana for individuals 21 and older to allow taxation by the State of Kansas (3)	☐	☐	☐	☐	☐	☐

Q29 How much do you agree or disagree that you feel comfortable supporting the following institutions with your taxpayer dollars?

	Strongly Agree (1)	Somewhat Agree (2)	Neither Agree Nor Disagree (3)	Somewhat Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
K-12 public schools (1)	☐	☐	☐	☐	☐	☐
Technical/vocational schools in Kansas (2)	☐	☐	☐	☐	☐	☐
Community colleges in Kansas (3)	☐	☐	☐	☐	☐	☐
The six State-governed universities in Kansas (4)	☐	☐	☐	☐	☐	☐
Washburn University (municipal) (5)	☐	☐	☐	☐	☐	☐

Q30 Which is more important, funding education or cutting tax?

- ☐ Funding education is more important (1)
- ☐ Cutting taxes is more important (2)
- ☐ DON'T KNOW (3)

Q31 As you decide who gets your vote to represent you in the Kansas Legislature, how likely are you to vote for a candidate who supports medical marijuana legalization?

- ☐ Highly Likely (1)
- ☐ Somewhat Likely (2)
- ☐ Neither More Nor Less Likely (3)
- ☐ Somewhat Unlikely (4)
- ☐ Highly Unlikely (5)
- ☐ DON'T KNOW (88)

Q32 How much do you support or oppose legalization of medical marijuana in general?

- ☐ Strongly Support (1)
- ☐ Somewhat Support (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q33 How much do you support or oppose legalization of recreational marijuana in general?

- ☐ Strongly Support (1)
- ☐ Somewhat Support (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q34 How strongly do you agree or disagree with these statements regarding abortion:

	Strongly Agree (1)	Agree (2)	Neither Agree Nor Disagree (3)	Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
The Kansas government should not place any regulations on the circumstances under which women can get abortions. (1)	☐	☐	☐	☐	☐	☐
When it comes to abortion, women are in a better position than politicians to make their own choices about whether to get an abortion. (2)	☐	☐	☐	☐	☐	☐
If the Kansas government were to ban all or most abortions, it should also make it illegal for Kansas women to travel outside of the state to get abortions in other states where abortion is still legal. For example, the Kansas government should make it a crime for a Kansas woman to travel to Colorado to get an abortion there. (3)	☐	☐	☐	☐	☐	☐

Q35 In 2022, Kansas voters voted to continue making abortion legal in Kansas under most circumstances. However, the Kansas Legislature continues to pass new restrictions on the procedure. In general, how do you feel about new laws that restrict access to abortion?

- ☐ Strongly Support (1)
- ☐ Somewhat Support (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q36 Crisis pregnancy centers are organizations that provide free pregnancy-related services such as pregnancy testing, parenting information, referrals for social services, and often encourage women to continue their pregnancies rather than seek abortion services. Before today, how familiar were you with crisis pregnancy centers?

- ☐ Very familiar (1)
- ☐ Somewhat familiar (2)
- ☐ Not very familiar (4)
- ☐ Not at all familiar (5)

Q37 Do you favor or oppose Kansas using state tax dollars to fund crisis pregnancy centers?

- ☐ Strongly Favor (1)
- ☐ Somewhat Favor (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q38 To what extent do you agree or disagree with the following statements about migrants who are legally in the U.S.?

	Strongly Agree (1)	Somewhat Agree (2)	Neutral (3)	Somewhat Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
They contribute to the economic vitality of my community. (1)	☐	☐	☐	☐	☐	☐
They contribute to economic vitality of Kansas. (2)	☐	☐	☐	☐	☐	☐
They contribute to economic growth of the U.S. (3)	☐	☐	☐	☐	☐	☐
They take jobs that Americans don't want. (4)	☐	☐	☐	☐	☐	☐
They contribute to government revenue by paying taxes. (5)	☐	☐	☐	☐	☐	☐
They enrich American culture and values. (6)	☐	☐	☐	☐	☐	☐
Immigrants take jobs away from American citizens. (7)	☐	☐	☐	☐	☐	☐
Immigrants take social services away from American citizens. (8)	☐	☐	☐	☐	☐	☐
There are too many immigrants coming to the United States. (9)	☐	☐	☐	☐	☐	☐

Accepting
more low-
skilled
immigrants
into the
United
States. (10)

Accepting
more high-
skilled
immigrants
into the
United
States. (11)

Q39 Now we have some statements about immigrants who are in the U.S. illegally (have no legal status to be in the country).

	Strongly Agree (1)	Somewhat Agree (2)	Neutral (3)	Somewhat Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
Immigrants who are in the country illegally contribute more to society than they take in terms of resources. (1)	☐	☐	☐	☐	☐	☐
Immigrants who are in the country illegally are a danger to public safety. (2)	☐	☐	☐	☐	☐	☐
Immigrants who are in the country illegally should be left alone by authorities if they don't break other laws. (3)	☐	☐	☐	☐	☐	☐
Immigrants who are in the country illegally should be arrested and put in detention camps while awaiting deportation hearings. (4)	☐	☐	☐	☐	☐	☐

Q40 People come to the United States through a variety of legal and illegal pathways. For each of the following groups, please indicate how concerned you are about their presence in the United States.

	Very Concerned (1)	Somewhat Concerned (2)	Neutral (3)	Not Very Concerned (4)	Not At All Concerned (5)	DON'T KNOW (88)
Cross the U.S. border without authorization (1)	☐	☐	☐	☐	☐	☐
Enter the U.S. legally but remain after their visa expires (2)	☐	☐	☐	☐	☐	☐
Were brought to the U.S. illegally as children by their parents (3)	☐	☐	☐	☐	☐	☐
Make false statements or provide false information during the visa or immigration application process (4)	☐	☐	☐	☐	☐	☐
Are admitted to the U.S. as refugees (5)	☐	☐	☐	☐	☐	☐
Are high- skilled workers on employment visas (6)	☐	☐	☐	☐	☐	☐
Are low-skilled temporary or seasonal workers (7)	☐	☐	☐	☐	☐	☐
Are asylum seekers awaiting a decision on their claim (8)	☐	☐	☐	☐	☐	☐

Are undocumented immigrants who have lived in the U.S. for many years (9)

☐	☐	☐	☐	☐	☐
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

Are family-sponsored immigrants joining relatives already in the U.S. (10)

☐	☐	☐	☐	☐	☐
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

Have violent criminal convictions (11)

☐	☐	☐	☐	☐	☐
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

Have immigration-related, nonviolent criminal convictions (12)

☐	☐	☐	☐	☐	☐
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

Have non-immigration-related, nonviolent criminal convictions (13)

☐	☐	☐	☐	☐	☐
-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

Q41 Of these, which do you believe is the most root cause of homeless?

- ☐ Lack of affordable housing (1)
- ☐ Mental health issues (2)
- ☐ Addictions (3)
- ☐ Domestic violence (4)
- ☐ Personal responsibility (5)
- ☐ DON'T KNOW (88)

Q42 Currently for most employees in Kansas, the primary state-wide family and medical leave protection is the federal Family and Medical Leave Act (FMLA), which provides eligible employees with up to 12 weeks of UNPAID, job-protected leave for certain family and medical reasons. Do you support or oppose Kansas providing PAID, job-related family and medical leave protection for all employees in Kansas?

- ☐ Strongly Support (1)
- ☐ Somewhat Support (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q43 What is the single most important reason for owning a gun or rifle?

- ☐ Hunting (1)
- ☐ Protection (2)
- ☐ 2nd Amendment (3)
- ☐ Work related (4)
- ☐ Hobby or collector (5)
- ☐ Some other reason (6)
- ☐ DON'T KNOW (88)

Q44 To what extent do you agree or disagree with the following statements?

	Strongly Agree (1)	Somewhat Agree (2)	Neutral (3)	Somewhat Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
Adults should be allowed to carry concealed handguns without a license or a permit. (1)	☐	☐	☐	☐	☐	☐
Adults should be allowed to carry handguns openly without a license or a permit. (2)	☐	☐	☐	☐	☐	☐
Adults should be allowed to carry concealed handguns on college campuses. (3)	☐	☐	☐	☐	☐	☐

Q45 How much do you favor or oppose the following policies around gun ownership?

	Strongly Favor (1)	Favor (2)	Neither Favor Nor Oppose (3)	Oppose (4)	Strongly Oppose (5)	DON'T KNOW (88)
Making private gun sales and sales at gun shows subject to background checks. (1)	☐	☐	☐	☐	☐	☐
Preventing sales of all firearms to people who have been reported as dangerous to law enforcement by a mental health provider. (2)	☐	☐	☐	☐	☐	☐
Preventing sales of all firearms to people who have been convicted of violent misdemeanors. (3)	☐	☐	☐	☐	☐	☐
Mandatory three-day waiting period after a gun is purchased before it can be taken home. (4)	☐	☐	☐	☐	☐	☐
Requiring a person to be 21 or older to purchase a gun. (5)	☐	☐	☐	☐	☐	☐

Banning high-capacity ammunition clips that hold more than 10 bullets. (6)

Banning assault-style weapons. (7)

Having teachers or other school officials with appropriate training carry guns at schools. (8)

Allowing family members to ask the court to temporarily remove guns from a relative who they believe is at risk of harming themselves or others. (9)

Authorizing law enforcement officers to temporarily remove guns from individuals who the officer determines pose an immediate threat of harm to self or others. (10)

Laws requiring
the safe
storage of
firearms in
homes and
other private
residences.
(11)

☐ ☐ ☐ ☐ ☐ ☐

Q46 Which of the following statements come closer to your overall view with regard to preventing mass shooting?

- ☐ Government and society can take action that will be effective in preventing mass shootings from happening again. (1)
- ☐ Mass shootings will happen again regardless of what action is taken by government and society. (2)
- ☐ No opinion (3)

Q47 Do you or does anyone else in your household own any guns (not including air guns, such as paintball BB, or pellet gun)?

- ☐ Yes, I or someone else in my household owns a gun (1)
- ☐ No, no one in my household owns a gun (2)

Q48 Currently, Kansas does not have the petition initiative, a means for voters to put a law directly on the ballot without having to go through the Kansas Legislature, if they collect enough verified signatures. How much do you agree or disagree with the idea that Kansas adopts the petition initiative?

- ☐ Strongly Agree (1)
- ☐ Somewhat Agree (2)
- ☐ Neutral (3)
- ☐ Somewhat Disagree (4)
- ☐ Strongly Disagree (5)
- ☐ DON'T KNOW (88)

Q49 Currently, Kansas does not have the petition initiative, a means for voters to put a law directly on the ballot without having to go through the Kansas Legislature, if they collect enough verified signatures. All states bordering Kansas (Missouri, Nebraska, Colorado, and Oklahoma) are among the states which do have the petition initiative. How much do you agree or disagree with the idea that Kansas adopts the petition initiative?

- ☐ Strongly Agree (1)
- ☐ Somewhat Agree (2)
- ☐ Neutral (3)
- ☐ Somewhat Disagree (4)
- ☐ Strongly Disagree (5)
- ☐ DON'T KNOW (88)

Q50 How much do you agree or disagree that education beyond high school offers a good return on investment for the student and for the general population of Kansas?

	Strongly Agree (1)	Somewhat Agree (2)	Neutral (3)	Somewhat Disagree (4)	Strongly Disagree (5)	DON'T KNOW (88)
Good return on investment for the student (1)	☐	☐	☐	☐	☐	☐
Good return on investment for the general population of Kansas (2)	☐	☐	☐	☐	☐	☐

Q51 How much do you support universities directly compensating student athletes for participating in intercollegiate athletics?

- ☐ Strongly Support (1)
- ☐ Somewhat support (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q52 How much do you support using state tax revenues to fund university athletic programs?

- ☐ Strongly Support (1)
- ☐ Somewhat support (2)
- ☐ Neutral (3)
- ☐ Somewhat Oppose (4)
- ☐ Strongly Oppose (5)
- ☐ DON'T KNOW (88)

Q53 Some people say the main goal of higher education is an educated citizenry for democratic functioning and others say it is to develop a workforce. Please select the statement you agree with most.

- ☐ Creating an educated citizenry is much more important (1)
- ☐ Creating an educated citizenry is slightly more important (2)
- ☐ Developing a workforce is slightly more important (3)
- ☐ Developing a workforce is much more important (4)
- ☐ DON'T KNOW (88)

Q54 One recent topic of debate is data centers. As far as you are aware, has there been a proposal to locate a new data center in your community?

- ☐ Yes (1)
- ☐ No (2)
- ☐ DON'T KNOW (88)

Q55 How concerned are you about each of the following issues regarding new data centers?

	Extremely Concerned (1)	Definitely Concerned (2)	Somewhat Concerned (3)	A Little Concerned (4)	Not Concerned At All (5)	DON'T KNOW (88)
Water usage (1)	☐	☐	☐	☐	☐	☐
Energy usage (2)	☐	☐	☐	☐	☐	☐
Land usage (3)	☐	☐	☐	☐	☐	☐
Noise (4)	☐	☐	☐	☐	☐	☐
Heat (5)	☐	☐	☐	☐	☐	☐
New solar installations to power the data centers (6)	☐	☐	☐	☐	☐	☐
New nuclear reactors to power the data centers (7)	☐	☐	☐	☐	☐	☐
Targeted by terrorists or foreign governments (8)	☐	☐	☐	☐	☐	☐
The A.I. made possible by data centers (9)	☐	☐	☐	☐	☐	☐

Q56 Think about how new data centers will affect the economy in the communities where they are located. Do you think their impact on the local economy will be...?

- ☐ Very Positive (1)
- ☐ Somewhat Positive (2)
- ☐ Neither Positive Nor Negative (3)
- ☐ Somewhat Negative (4)
- ☐ Very Negative (5)
- ☐ DON'T KNOW (88)

Q57 Please rank the following issues from the most important (at the top) to the least important (at the bottom). You may click and drag the issues until you have them in the order that fits your own preferences. If the issues are already in the order you prefer, drag the option "THESE ARE ALREADY IN THE ORDER I WOULD CHOOSE" from the bottom to the top of the list.

- _____ The Kansas economy in general (1)
- _____ The cost of housing (2)
- _____ The cost of groceries (3)
- _____ The cost of energy, including gasoline and diesel (4)
- _____ Abortion rights (5)
- _____ Access to firearms (6)
- _____ Immigration (7)
- _____ Childcare (8)
- _____ Elder care (9)
- _____ Homelessness (10)
- _____ Water usage (11)
- _____ Other agriculture issues (12)
- _____ New data centers (13)
- _____ THESE ARE ALREADY LISTED IN THE ORDER I WOULD CHOOSE (14)

Q58 Do you consider yourself a...

- ☐ Strong Republican (1)
- ☐ Moderate Republican (2)
- ☐ Independent, Leaning Republican (3)
- ☐ Independent (4)
- ☐ Independent, Leaning Democrat (5)
- ☐ Moderate Democrat (6)
- ☐ Strong Democrat (7)
- ☐ DON'T KNOW (88)

Q59 In general, would you describe your political views as very conservative, conservative, somewhat conservative, moderate, somewhat liberal, liberal or very liberal?

- ☐ Very conservative (1)
- ☐ Conservative (2)
- ☐ Somewhat conservative (3)
- ☐ Moderate (4)
- ☐ Somewhat liberal (5)
- ☐ Liberal (6)
- ☐ Very liberal (7)
- ☐ DON'T KNOW (88)

Q60 Are you currently a registered voter in Kansas?

- ☐ Yes (1)
- ☐ No (2)
- ☐ DON'T KNOW (88)

Display this question:

If Are you currently a registered voter in Kansas? = Yes

Q61 Which party are you registered with?

- ☐ Republican Party (1)
- ☐ Democratic Party (2)
- ☐ Libertarian Party (3)
- ☐ No Labels Kansas Party (dissolved May 2026) (4)
- ☐ United Kansas Party (5)
- ☐ Unaffiliated (6)
- ☐ DON'T RECALL (7)

Q62 Do you have children under 18 years old living in your household?

- ☐ Yes (1)
- ☐ No (2)
- ☐ Prefer to not answer (99)

Q63 What is the highest level of education you have received?

- ☐ Less than high school (1)
- ☐ High school diploma or equivalency (2)
- ☐ Some college or associate's degree (3)
- ☐ Bachelors degree or higher (4)
- ☐ DON'T KNOW (5)
- ☐ Prefer not to answer (99)

Q64 Are you Hispanic, Latino/a, or Spanish origin?

- ☐ Yes (1)
- ☐ No (2)
- ☐ DON'T KNOW (88)
- ☐ Prefer not to answer (99)

Q65 Which one or more of the following would you say is your race?

- ☐ White (1)
- ☐ Black or African American (2)
- ☐ American Indian or Alaska Native (3)
- ☐ Asian (4)
- ☐ Native Hawaiian and Other Pacific Islander (5)
- ☐ Other (6)
- ☐ DON'T KNOW (88)
- ☐ Prefer not to answer (99)

Q66 Which category includes your total household annual income in 2025 before taxes and withholdings (i.e. total gross income)?

- ☐ Under \$10,000 (1)
- ☐ \$10,000 to \$24,999 (2)
- ☐ \$25,000 to \$34,999 (3)
- ☐ \$35,000 to \$49,999 (4)
- ☐ \$50,000 to \$74,999 (5)
- ☐ \$75,000 to \$99,999 (6)
- ☐ \$100,000 to \$149,999 (7)
- ☐ \$150,000 to \$199,999 (8)
- ☐ \$200,000 or more (9)
- ☐ Unsure (10)
- ☐ Prefer not to answer (11)

Appendix C: Crosstabulations

For reviewing these crosstabs, use the Zoom feature in Adobe.

The tables are in the same order as the questions in the questionnaire. Each table shows how respondents' answers to each question varied by age group, education level, gender, race, political orientation, and household income. Each row contains the percentages of respondents selecting each answer option of the survey question within a demographic category. For example, the first table in Appendix C presents how respondent answered the question "In general, how would you rate Kansas as a place to live?" The first row in that table shows how respondents of 18-34 years old answered the question: 16.1% of respondents of 18-34 years old selected "excellent," 25.7% of respondents of that age group selected "very good," etc.
