

Organizations and Committees

Americans with Disabilities Act

Two organizations/committees at FHSU handle issues involving disabilities.

Accessibility for the Disabled Committee: The ADC is comprised of students, faculty and staff. The Affirmative Action Officer and a representative from Facilities Planning are ad hoc members of the committee. Committee appointments are effective for one year. The committee discusses issues related to disabilities and makes recommendations to administration regarding campus modifications and policy. The Coordinator of Services for Students with Disabilities (628-4401) is the committee chair.

Equal Opportunity Employment Committee: This Committee is comprised of students, faculty and staff. Members serve one-year appointments. The committee discusses policy and other issues related to protected classes (race, gender, religion, national origin, age disability, and veteran status). The EEO Officer serves as committee chair.
