## KBOR Academic Year Reporting Dashboard

# KBOR Academic Year Reporting Dashboard

### What is the KBOR Academic Year Reporting Dashboard?

The dashboard allows users to see various aspects of student data in a visual way based on data as submitted to KBOR for our annual reporting. The dashboard includes navigation tabs along with some detail on what each page will contain.

Academic years include Summer, Fall and Spring, with year of the Spring Semester being used. For example, Summer 2018, Fall 2018 and Spring 2019 are included in the Academic Year (AY) 2019. This dashboard includes data from AY19 to AY24.

Questions/Concerns? Contact the Institutional Effectiveness and Quality Improvement team.

### Headcount by Academic Year

On this page you can look at distinct student counts as they are defined for an academic year based on their academic level, load status, modalities and more. The page allows you filter either by academic year filter or by clicking on any of the available information pieces.

### Headcount by Academic Semester

On this page you can look at distinct student counts as they are defined by academic semester based on their academic level, load status, modalities and more. The page allows you filter either by semester filter or by clicking on any of the available information pieces.

### Student State Location of Students by Academic Semester

On this page you can look at the state the student was located during the selected academic period. You can also further see what college or department the student belongs to and if the student would have been in a starting cohort during the selected semester.

### Student Financing

On this page you can look funding sources and types received by student during the selected academic term(s). You will be able to filter by academic level and semester as well as see trends year to year.

[kansasregents.gov](https://kansasregents.gov)

Within the State of Kansas includes six state universities, one municipal university, 19 community colleges, and six technical colleges. The Kansas Board of Regents governs the state university system over the other three types of postsecondary institutions. Annually, the system as a whole enrolls more than 250,000 students in a wide array of academic disciplines and degree programs and awards more than 42,000 credentials ranging from certificates to doctoral degrees.
