

Objective 2.1: Knowledge of the Liberal Arts

Course: Econ 201 Principles of Microeconomics

Students will possess a broad understanding of how to think about the world, having studied the modes of inquiry characteristic of humanities, mathematics, natural sciences, and social and behavioral sciences.

Outcomes 2.1-F: Social Scientific Mode of Inquiry

By graduation students will:	Not Proficient 1 Point	Developing Proficiency 2 Points	Proficient 3 Points	Exceeding Proficiency 4 Points
Identify, within a given scenario, applicable frameworks for explaining social phenomena.	Students demonstrate a poor understanding of knowledge in the relevant social phenomena by answering 59.99% (or less) of questions correctly.	Students demonstrate a limited understanding of knowledge in the relevant social phenomena by answering 60-74.99% of questions correctly.	Students demonstrate a good understanding of knowledge in the relevant social phenomena by answering 75-89.99% of questions correctly.	Students demonstrate an excellent understanding of knowledge in the relevant social phenomena by answering 90-100% of questions correctly.
Evaluate the merits of social science research, with respect to factors such as sample size, study design, and validity, at the level of an informed citizen.	Students demonstrate a poor understanding of knowledge in evaluating merits of the relevant social science research by answering 59.99% (or less) of questions correctly.	Students demonstrate a limited understanding of knowledge in evaluating merits of the relevant social science research by answering 60-74.99% of questions correctly.	Students demonstrate a good understanding of knowledge in evaluating merits of the relevant social science research by answering 75-89.99% of questions correctly.	Students demonstrate an excellent understanding of knowledge in evaluating merits of the relevant social science research by answering 90-100% of questions correctly.
Compare and contrast human behavior among various cultures using social science concepts.	Students demonstrate a poor understanding of social science concepts by answering 59.99% (or less) of questions correctly.	Students demonstrate a limited understanding of knowledge in social science concepts by answering 60-74.99% of questions correctly.	Students demonstrate a good understanding of social science concepts by answering 75-89.99% of questions correctly.	Students demonstrate an excellent understanding of social science concepts by answering 90-100% of questions correctly.

Assignment meeting Outcome 1: Quiz --- Chapter 6 Elasticity: The Responsiveness of Demand and Supply

Assignment meeting Outcome 2: Quiz --- Chapter 1 Economics: Foundations and Models

Assignment meeting Outcome 3: Quiz --- Chapter 2 Trade-offs, Comparative Advantage, and the Market System
