FHSU'S KANSAS WETLANDS EDUCATION CENTER ANNUAL METEOR SHOWER WATCH PARTY

08/03/2020

Each August, Earth passes through a stream of dust and debris left behind by the Swift-Tuttle Comet. With perfect weather conditions and no light pollution from the moon, the Perseid meteor shower can produce up to 100 shooting stars an hour. Fort Hays State University's Kansas Wetlands Education Center will host its annual Perseid meteor shower watch party Friday, Aug. 14, from 8:30 to 10:30 p.m. Join Wetlands staff for a night of activities, crafts, and shooting stars. Visitors are encouraged to bring lawn chairs or blankets to enjoy the night sky.
