Notice of the setoff action will be provided to the vendor. The vendor shall credit the account of the agency making the payment in an amount equal to the funds intercepted.

K.S.A. 75-6201 et seq. allows the Director of Accounts & Reports to setoff funds the State of Kansas owes vendors against debts owed by the vendors to the State of Kansas. Payments setoff in this manner constitute lawful payment for services or goods received. The vendor benefits fully from the payment because its obligation to the State is reduced by the amount subject to setoff.

Immigration and Reform Control Act of 1986 (IRCA): All contractors are expected to comply with the Immigration and Reform Control Act of 1986 (IRCA), as may be amended from time to time. This Act, with certain limitations, requires the verification of the employment status of all individuals who were hired on or after November 6, 1986, by the contractor. The usual method of verification is through the Employment Verification (I-9) form.

With the submission of this bid, the contractor hereby certifies without exception that such contractor has complied with all federal and state laws relating to immigration and reform. Any misrepresentation in this regard or any employment of persons not authorized to work in the United States constitutes a material breach and, at the University's option, may subject the contract to termination and any applicable damages.

Unless provided otherwise herein, all contractors are expected to be able to produce to FHSU any documentation or other such evidence to verify Contractor's compliance with any provision, duty, certification or like under the contract.

HIPAA Confidentiality: Per the Health Insurance Portability and Accountability Act (1996) (HIPAA), the agency is a covered entity under the act and therefore Contractor is not permitted to use or disclose health information in ways that the agency could not. This protection continues as long as the data is in the hands of the Contractor.

If, during the term of the contract, the Contractor or subcontractor moves work previously performed in the United States to a location outside of the United States, the Contractor shall immediately notify the FHSU Purchasing Office in writing, indicating the new location and the percentage of work relocated.

On-Site Inspection: Failure to adequately inspect the premises shall not relieve the successful vendor from furnishing without additional cost to FHSU any materials, equipment, supplies or labor that may be required to carry out the intent of this RFP. Submission of a bid shall be construed as evidence that the vendor has made necessary examination, inspection and investigation. Failure to properly inspect the site may result in rejection of the vendor's bid.

Prices: Prices shall remain firm for the entire contract period and subsequent renewals. Prices quoted shall be net delivered, including all trade, quantity and cash discounts. Any price reductions available during the contract period shall be offered to FHSU. Failure to provide available price reductions may result in termination of the contract.

This Statute requires Fort Hays State University to pay the full amount due for goods or services on or before the 30th calendar day after the date Fort Hays State University receives such goods or services or the bill for the goods and services, whichever is later, unless other provisions for payment are agreed to in writing by the vendor and Fort Hays State University. NOTE: If the 30th calendar day noted above falls on a Saturday, Sunday, or legal holiday, the following workday will become the required payment date.

Payments shall not be made for costs or items not listed in the vendor's response.

Shipping and F.O.B. Point: Unless otherwise specified, bid prices shall be F.O.B. DESTINATION, PREPAID AND ALLOWED (included in the price bid), which means delivered to FHSU's receiving dock or other designated point as specified in this RFP without additional charge. Shipments shall be made in order to arrive at the destination at a satisfactory time for unloading during receiving hours.

Charge Back Clause: If the contractor fails to deliver the product within the delivery time quoted on the contract, FHSU reserves the right to purchase the product from the open market and charge back the difference between contract price and open market price to the contractor.

Equipment: All proposed equipment, equipment options, and hardware expansions must be identified by manufacturer and model number and descriptive literature of such equipment must be submitted with the bid.

Implied Requirements: All products and services not specifically mentioned in RFP, but which are necessary to provide the functional capabilities described by the specifications, shall be included. Other products required to make the described software functional shall be identified in the vendor's response.

Warranty: Bidders shall indicate the type and extent of the warranty for all equipment, hardware, software, and services proposed. FHSU requires a "standard" warranty of a specific amount of days, or one (1) year, whichever is greater. This warranty shall be included in the cost of the equipment.

The successful bidder will be the sole point of contact on any problems with the equipment or systems during the warranty period.

The Contractor shall be responsible for all work performed under these specifications. The Contractor shall make good, repair and replace, at the Contractor's own expense, as may be necessary, any defective work, material acceptance, if in the opinion of the FHSU Purchasing Office said defect is due to imperfection in material, design, or workmanship for the warranty period specified.

Acceptance: No contract provision or use of items by FHSU shall constitute acceptance or relieve the vendor of liability in respect to any expressed or implied warranties.

Ownership: All data, forms, procedures, software, manuals, system descriptions and work flows developed or accumulated by the Contractor under this contract shall be owned by FHSU. The Contractor may not release any materials without the written approval of FHSU.

Certification of Materials Submitted: The response to this RFP, together with the specifications set forth herein and all data submitted by the vendor to support the response including brochures, manuals, and descriptions covering the operating characteristics of the item(s) proposed, shall become a part of any contract between the successful vendor and FHSU. Any written representation covering such matters as reliability of the item(s), the experience of other users, or warranties of performance shall be incorporated by reference into the contract.

Inspection: FHSU reserves the right to reject, on arrival at destination, any items which do not conform with specifications of the RFP.

New Materials, Supplies or Equipment: Unless otherwise specified, all materials, supplies or equipment offered by a vendor shall be new, unused in any regard and of most current design. All materials, supplies and equipment shall be first class in all respects. Seconds or flawed items will not be acceptable. All materials, supplies or equipment shall be suitable for their intended purpose and, unless otherwise specified, fully assembled and ready for use on delivery.

Vendor Contracts: Include a copy of any contracts, agreements, licenses, warranties, etc. proposed. (State of Kansas form DA-146a remains a mandatory requirement in all contracts.)

Transition Assistance: In the event of contract termination or expiration, Contractor shall provide all reasonable and necessary assistance to FHSU to allow for a functional transition to another vendor.

Contract Provisions

This contract is established to furnish Pest Control Services for Fort Hays State University. The pest control work under this contract shall be considered satisfactory when the population and the evidence of the pests herein specified are reduced to an absolute minimum satisfactory to the University.

These specifications cover and include the furnishing of all labor, materials, equipment, certifications of an amount of financial responsibility, permits and fees necessary to accomplish the pest control services herein specified. This applies to designated buildings and includes all tunnels, basements, and other places adjacent to the structures and on institutional grounds where infestation might be found.

1. Insects to be controlled shall include cockroaches, silverfish, spiders, flies, sow bugs, pantry pests and ants other than carpenter and pharaoh ants.
2. Rodent control shall include the effective control of rats and mice in all buildings under this contract and perimeter control of rodents adjacent to buildings.
3. Spray pests outside the Wooster Place and Stadium Place Apartment buildings on an "on call" basis.
4. Control of termites and other wood destroying pests not listed above is included in this contract for the President's residence only. All other buildings on campus will be treated on an "on call" basis for termite infestation.
5. The Contractor shall report the presence and location of infestations of any other pests not otherwise included in this contract, when identified.
6. Pest Management Plan: The pest control services plan shall be submitted to Jim Schreiber, FHSU Physical Plant Co-Director, 785-628-4279, within ten (10) working days after notification of the award. The cost of implementing and maintaining the Pest Management Plan shall be included with the bid. The Pest Management Plan should integrate preventive and corrective measures and identify "sensitive areas". The Plan should be implemented at the lowest cost with minimum risk to humans, property, or the environment by utilization of inspection, identification, recommendation for control, treatment, and review and evaluation of the pest problem.
7. The Plan should initially focus on identification of pests, location and severity of infestations. Next, procedures shall be employed to reduce pest populations to low levels using "clean out" procedures. Then, the focus of the Plan shall include prevention and management of infestations. The Plan shall include cultural, mechanical, physical, and chemical means of control when and where practical. Factors which limit the potential for the pest to survive and reproduce should be employed. This may involve the use of pesticides, but the emphasis of the services is to be directed towards sanitation and exclusion. If necessary, a separate bid (or subcontractor's bid submitted) may also be made for mechanical alterations such as caulking, sealing, screening, and installation of preventative devices such as light traps, air screens, and mist dispensers and the monitoring and servicing thereof that may be necessary or desirable to help achieve control. However, the agency reserves the right to perform the recommended mechanical alterations itself. The Plan should include provisions for maintaining a pest-monitoring program.
8. The Contractor shall submit a complete and detailed preliminary report with the Pest Management Plan within ten (10) working days of receipt of the award of contract. This report shall be based on a sanitation inspection of designated structures performed by a certified applicator and a designated employee of the facility. This report shall cover existing sanitary conditions affecting insect and rodent control, identify "sensitive areas", and shall include recommendations for steps to be taken by the Contractor and by the facility management to maintain a high level of insect and rodent control within all buildings and grounds covered by the contract. Such inspection and recommendations should cover factors that are conducive to pest populations such as: harborage areas, heat, darkness, moisture, food and water, means of entry, and other evidence of the presence of pests such as droppings, shed skins, etc.
9. The Contractor will enter, for the purpose of inspection, monitoring and providing control (as necessary), all of the designated buildings and areas of the facility at least twice a month as listed in **Group 2**. The Contractor shall make additional control procedures or treatment as deemed necessary by the facility. Such service shall be rendered promptly, (within 12 hours after advice of need of service in sensitive areas, otherwise within 24 hours), when requested by the facility. Provided that the university shall limit requests for service on weekends and legal

holidays to genuine emergencies so that such requests are held to a strict minimum. The Contractor will provide services to the designated university representatives at a time mutually agreed upon with the following areas:

The parties agree that the following provisions are hereby incorporated into the contract to which it is attached and made a part thereof, said contract being the ____ day of _____, 20_____.

- Terms Herein Controlling Provisions:** It is expressly agreed that the terms of each and every provision in this attachment shall prevail and control over the terms of any other conflicting provision in any other document relating to and a part of the contract in which this attachment is incorporated. Any terms that conflict or could be interpreted to conflict with this attachment are nullified.
- Kansas Law and Venue:** This contract shall be subject to, governed by, and construed according to the laws of the State of Kansas, and jurisdiction and venue of any suit in connection with this contract shall reside only in courts located in the State of Kansas.

State agrees to give written notice of termination to contractor at least 30 days prior to the end of its current fiscal year, and shall give such notice for a greater period prior to the end of such fiscal year as may be provided in this contract, except that such notice shall not be required prior to 90 days before the end of such fiscal year. Contractor shall have the right, at the end of such fiscal year, to take possession of any equipment provided State under the contract. State will pay to the contractor all regular contractual payments incurred through the end of such fiscal year, plus contractual charges incidental to the return of any such equipment. Upon termination of the agreement by State, title to any such equipment shall revert to contractor at the end of the State's current fiscal year. The termination of the contract pursuant to this paragraph shall not cause any penalty to be charged to the agency or the contractor.
- Disclaimer Of Liability:** No provision of this contract will be given effect that attempts to require the State of Kansas or its agencies to defend, hold harmless, or indemnify any contractor or third party for any acts or omissions. The liability of the State of Kansas is defined under the Kansas Tort Claims Act (K.S.A. 75-6101 et seq.).
- Anti-Discrimination Clause:** The contractor agrees: (a) to comply with the Kansas Act Against Discrimination (K.S.A. 44-1001 et seq.) and the Kansas Age Discrimination in Employment Act (K.S.A. 44-1111 et seq.) and the applicable provisions of the Americans With Disabilities Act (42 U.S.C. 12101 et seq.) Contractor agrees to comply with all applicable state and federal anti-discrimination laws.

The provisions of this paragraph number 5 (with the exception of those provisions relating to the ADA) are not applicable to a contractor who employs fewer than four employees during the term of such contract or whose contracts with the contracting State agency cumulatively total \$5,000 or less during the fiscal year of such agency.

- Acceptance Of Contract:** This contract shall not be considered accepted, approved or otherwise effective until the statutorily required approvals and certifications have been given.
- Arbitration, Damages, Warranties:** Notwithstanding any language to the contrary, no interpretation of this contract shall find that the State or its agencies have agreed to binding arbitration, or the payment of damages or penalties. - Representative's Authority To Contract:** By signing this contract, the representative of the contractor thereby represents that such person is duly authorized by the contractor to execute this contract on behalf of the contractor and that the contractor agrees to be bound by the provisions thereof.

- Insurance:** The State of Kansas and its agencies shall not be required to purchase any insurance against loss or damage to property or any other subject matter relating to this contract, nor shall this contract require them to establish a "self-insurance" fund to protect against any such loss or damage. Subject to the provisions of the Kansas Tort Claims Act (K.S.A. 75-6101 et seq.), the contractor shall bear the risk of any loss or damage to any property in which the contractor holds title.
