Largest summer camp brings young musicians and accomplished guest artists to Fort Hays State

07/07/16

Dr. Ivalah Allen is looking forward to the 70th anniversary of Fort Hays State University's High Plains Music Camp, the largest of FHSU's summer camps.

"We're already gearing up for next year," said Allen, in her fifth year as camp director this year. "We're making plans for some significant clinicians but also some fun things around the camp, too." [More](#)

Professor combines his passion for history, movies in classroom

07/05/16

Dr. David Goodlett uses his passion for movies to help him when he teaches about his other passion -- history.

Goodlett, associate professor of history, enters his 20th year teaching at Fort Hays State University this fall. He has found that movies are something his students can relate to when he is trying to make a point in class. [More](#)

Accomplishments and Happenings

FHSU students travel to California to present research on possible Kansas fossil sites

07/07/16

Researching and locating potential fossil sites in Kansas led four Fort Hays State University students to San Diego to present their findings at the Environmental Systems Research Institute's Annual Geographic Information Systems User Conference. [More](#)

FHSU's online programs continue to appear in national rankings, making education possible

07/06/16

An online education is on the minds of more students, parents and caregivers each day as balancing full-time jobs and life's challenges makes earning a degree on campus seem impossible.

With more than 20 years of online experience and more than 40 online programs, Fort Hays State University makes its mark on more ranking sites each month as one of the top online choices for earning an associate, bachelor's or master's degree from home. [More](#)

Students study aerodynamics in week-long camp

07/05/16

Fort Hays State University's Science and Mathematics Education Institute recently hosted its sixth summer camp, "The Science of Aerodynamics."

The camp taught students about aerodynamics and the elements of flight through various experiments and projects, including creating their own aircraft. [More](#)
